
--	---	---

In your jotter write the DATE in the margin.

Now add a TITLE for your homework.

Your title should be the name of the Homework: Cells & Reproduction Wk 3

	<p><b>QUESTION 1.</b> Look at the diagram of the plant cell.</p>
	
a)	In your jotter, use a ruler to construct a table to show the names and functions of the labelled structures
b)	Name three ways in which plant cells differ from animal cells.

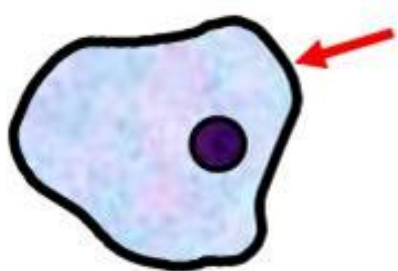

**QUESTION 2.**

	Which of the following is made of cells?
A.	water
B.	microscopes
C.	living things
D.	salt solutions

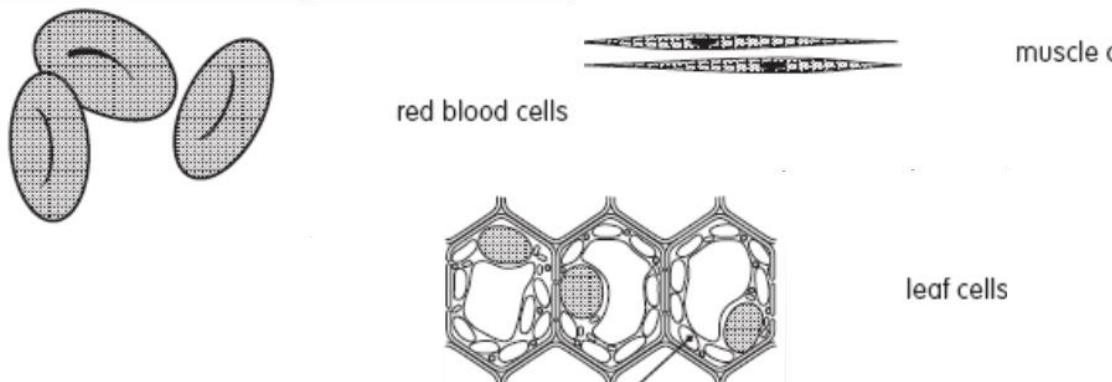

### QUESTION 3.

	There are some animals and plants which are
A.	not made of cells
B.	smaller than cells
C.	made of only one cell
D.	too big to have any cells

### QUESTION 4.

	What structure is the arrow pointing to?
	
A.	Cell wall
B.	Cytoplasm
C.	Cell membrane
D.	Nucleus

### QUESTION 5.

The diagram shows three different cell types.	
	
For each of the labelled cells describe the cell's function and an adaptation of the cell which helps it carry out that function. You may wish to present your answers in a table.
