- Update us please on Duke of Edinburgh award teachers within the School and how many are going through this ?

### Notes

Glasgow City Council's Pupil Equity Funding (PEF) is a grant given to schools to help reduce the poverty-related attainment gap. The council receives this funding from the Scottish Government and then fully devolves it to schools, giving them the flexibility to use it to best support their students. For the 2024/25 year, the city's PEF allocation totals £23.208 million.
