

Home Learning Grid: Primary 7 – Version 4

Colour in the boxes to show which activities you have done.

P7 Trench Building Task

Based on what you have been learning this term about WW1 and thinking back to the trenches you have seen previous P7 classes displaying. Use materials you have at home to create a 3D model of a WW1 trench. Try to think about what the trench would look like and include important features of a trench. Use Google if you are needing some inspiration. This task will take a few sessions to plan, resource and create. Take a picture of your finished trench and send it to us via Twitter.

Learn to cook something **new**. Write down the recipe and instructions.

Create an **Art Alphabet**. Draw a picture for every letter of the alphabet. Can you think of something for all 26 letters?

Traditional Games Try out a traditional game – here are some examples. Make your own stilts from old cans and string. Make Skittle pins using old plastic bottles. Use chalk to play hopscotch. Play 'When I went Shopping' with your family.

STEM

Build the tallest tower you can using items you find around your house. Risk Assessment – don't use anything breakable and do it in a space where it won't cause damage if/when it falls. Extension – film your build using Time-lapse.

Choose a couple of Just Dance videos on YouTube and have a dance break.

Plan a virtual holiday. If you could go anywhere in the world, where would you go? How would you get there? What would you see and do while there?

Part 1 – research how you would get to your chosen destination (type of transport, what airports, connections) and where you would stay – work out the cost for both of these.

Part 2 – Plan some sightseeing/activities you could do while you were there and write about/draw these, also work out how much spending money you would need.

Write about your favourite memories over the years you have been at Pirie Park Primary

Log on to BrainPop and work through the '**Mental Health**' videos and quizzes in the Health Section.

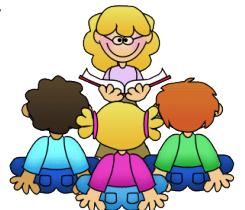

Log on to Code.org and work through the 'Hour of Code' tasks

Make a game that you can play with your family. It could be a board game, a card game, a PE type game.

Make up quiz to do with your family. Try to think of some different rounds (eg. General Knowledge, Sport, Music, TV/Film).
