

# Perspective

S1 Manual Graphics

# 1 Point Perspective

As part of the S1 Graphics course you created perspective drawings like the one shown opposite.

**Can you identify the Vanishing point? And the Horizon Line?**

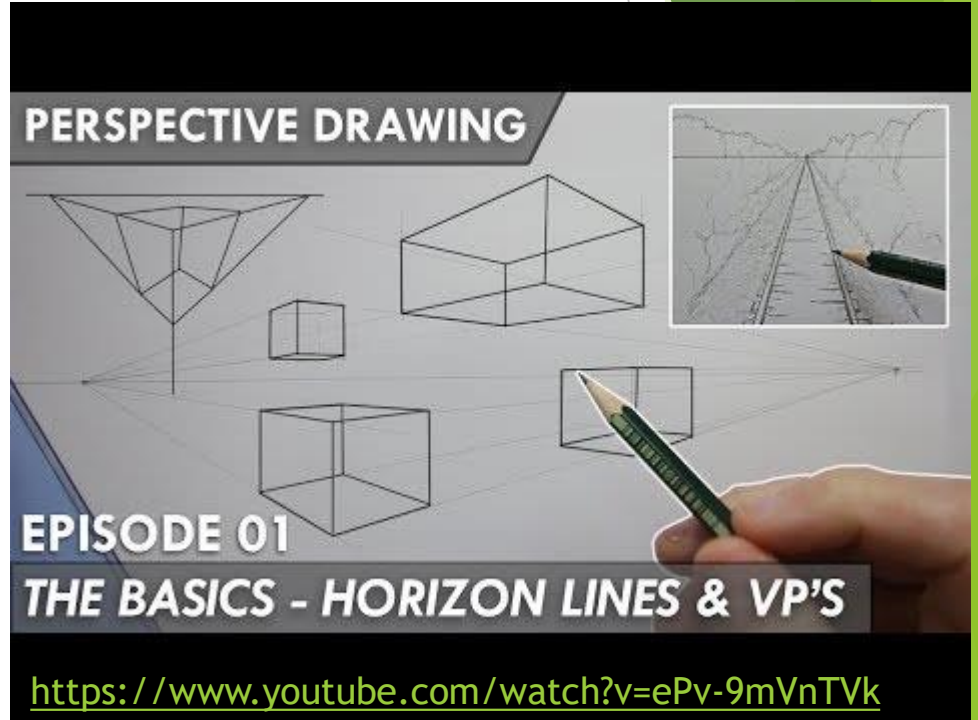

# 1 Point Perspective continued

Watch this video tutorial to remind you of the steps when drawing something in 1 Point Perspective.

## Task 1 -

Sketch an object in 1 point perspective. (It can be anything from a box to a building to letters).

# Forced Perspective

Watch this video to see some clever uses of perspective when taking pictures.

# Examples

These images show some cool examples of how perspective has been used to create mind bending photographs.

# Task 2

## Instructions

Your task is to take your own photos which use perspective to create a cool image

- ▶ Go wild, use your imagination and come up with something original. (Minimum 2 images)
- ▶ The most interesting photos will be printed and displayed in the Tech department when we get back to school and posted on twitter
- ▶ Once you've taken your photos, email it to your teacher.
- ▶ **Note** : This task can be completed entirely on your smartphone so no need to login to a computer
