

Task 2

Focus : Materials

Equipment :

- Pen/pencil & paper
- ipad/phone/laptop optional

Wood

Identify 3 different types of wood or manufactured board around your home or garden.

Can you name the wood or board?
What properties does it have that make it suitable for this use?

If you can't name 3 different, choose different items made from the same material.

EXT: What is the general term for the plastic coating on manufacture board? Why is this used?

Try include pictures!

E.g. Laminated flooring is made from MDF. This is suitable as MDF comes in large sheets which is needed for the size and doesn't warp so keeps flat.
