What is the School Improvement Plan?

Our School Improvement Plan is the plan we develop each year to identify targets for development that will improve the school. The feedback we receive from parents, carers, pupils and staff as well as looking at the attainment of our pupils are used to inform us as to which targets are appropriate each year. For the session 2023-24 we will be focusing on the following three areas for improvement. At the end of the year, we evaluate these and set targets for the following year. The **Standards and Quality** document you receive each year in August is a summary of the evaluation of the previous year's plan.

Our areas for focus 2023-24 are summarised below:

Attendance

We wanted to emphasise the importance of excellent attendance at Sandaig for your child's development and success. Regular attendance allows them to fulfil their potential, learn, have fun, make new friends, experience new things in life, achieve, develop new skills, build confidence, and enhance self-esteem, ultimately giving them the best possible start in life. On the other hand, children who frequently miss school without valid reasons may become isolated from their friends, underachieve academically, and be more susceptible to engaging in anti-social behaviour. Let's work together to ensure your child's attendance remains consistent for their brighter future.

Digital Technology

Staff will be undertaking specialist training on teaching of digital technology and use of Apple Applications. They will work together to develop their professional knowledge and understanding. We will be measuring the impact of this on children's motivation and engagement to learn.

Raising Attainment and Progress

We will have a big focus on Literacy (Phonics/Reading and Writing) and Numeracy. We will prioritise improving practitioners' skills, increasing parental involvement, and fostering a supportive yet challenging learning environment. By adhering to the four capacities of Curriculum for Excellence (CfE), we will ensure every child's potential is reached, creating successful, confident, responsible, and effective learners. The impact will be - engaged and motivated learners who are supported by their families. We aim to give every child the best start and ensure they are ready to learn at SANDAIG.
