Saturday 12 September 2020

Dear Parent/Carer,

We've written to you all this week to let you know about the Test and Protect involvement in our school in relation to coronavirus. I know that this is anxious time for our school community and we want to do everything that we can to keep everyone safe and supported during this period.

I'm aware of some rumours circulating on social media that are not helping our families' concerns and I wanted to let you know that we will continue to keep you updated with information that we can to help alleviate these concerns.

As you know, I can't speak about individuals – staff or pupils – but please be reassured that we will continue to work with our Public Health colleagues to do everything that we can to keep us all safe and mitigate any risks that we can to help suppress the virus.

Your children and the school staff are my top priority and I will continue to keep you updated throughout this situation.

As always, please contact me via the school office if you have any questions and I will do my best to answer these or liaise with my health colleagues to help keep your minds at rest.

I know that as a school community we have the strength to all work together through this period.

Thank you all for your continued support,

Joanne Martin
