

# ST. PATRICK'S CURRICULUM RATIONALE JOURNEY

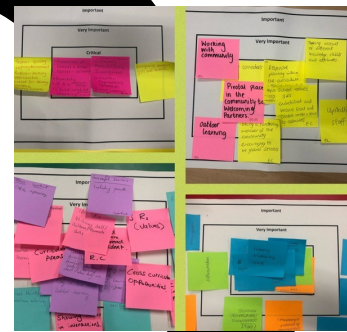

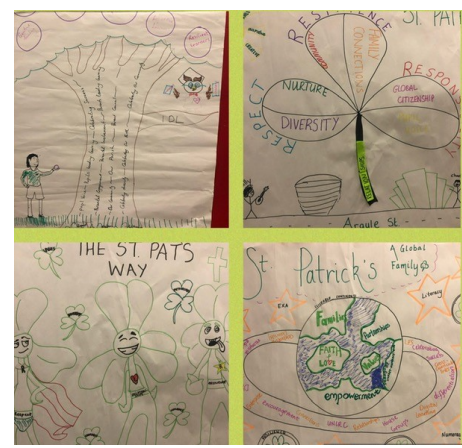

**13th October 2022**

Jane Arthur supported us during one of our CAT nights to explore both the four capacities and contexts so we could decide as a team, which were most important and relevant to us...

**2nd November 2022**

We worked in teams to create our initial designs and presented these back to the group. Lots of competitive discussion and the introduction of 'clickable icons'!

**15th June 2023**

Decisions...decisions and the competition was heating up! We presented our final creations in teams and voted on the final two designs to put forward to our young people.

**19th June 2023**

After an assembly our pupils cast their vote on the final design!

**August 2023**

We got our final design digitised, ready to be presented to the school and wider community! The sun outlines the SHANARRI indicators that are at the heart of all we do!

Our school values are outlined around the St. Patrick's shamrock, all of which are stemmed and nourished through our Relationships.

The multi-coloured footprints represent the curricular areas we teach in Scotland and are placed on a path to symbolise the learning journey each and every one of us are on.
