

PARENTS' GUIDE

In St Thomas Aquinas Secondary School, we strive to form positive relationships with each young person who attends our school. Our approach to promoting positive relationships is based on our Catholic ethos, the nurturing principles and our shared values in order to create a climate of mutual respect and trust where everyone can learn and work in a peaceful and safe environment.

Children and young people should feel happy, safe, respected and included in the learning environment and all staff should be proactive in promoting positive behaviour in the classroom.
