

Draw your own Go-Away Bird!

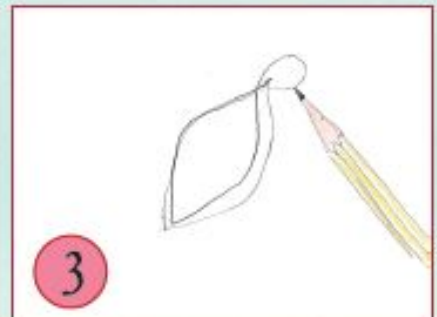

Would you like to draw the Go-Away Bird? Just follow these 9 simple steps.

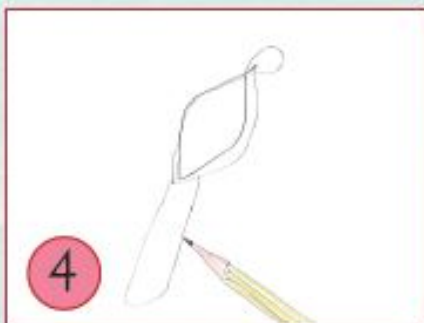

1 Using a pencil, draw a wobbly leaf shape. This is the wing of your bird.

2 Draw a bigger wobbly leaf shape around the first one you drew. This is your bird's body.

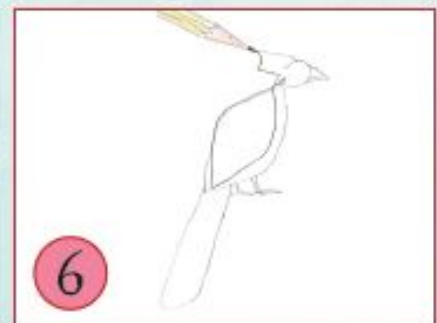

3 At the top of your shape, draw an oval for your bird's head.

4 Now it's time to create the tail! Draw a long, thin rectangle at the bottom of the body.

5 Add a beak to the head of the bird so she can squawk "Go-Away!" at the other birds!

6 Add the crest to the top of her head by drawing another rectangle shape opposite her beak.

7 Add the bird's legs and feet underneath her body. Now finish the Go-Away bird's head by adding in a line to create her neck.

8 Now draw her eye – if you want to make her look cross, you can add a stern eyebrow. But you can make her happy if you would like by leaving out the eyebrow and giving her a smile.

9 Now it's time to colour her in. The Go-Away Bird looks grey but she has lots of other colours in her feathers too! Can you see the blue, yellow and purple?

The GO-AWAY BIRD
