

Food Chain Career Long Professional Learning Event @ SRUC's Aberdeen Campus at Craibstone Thursday 17th September, 4.30 – 7.00pm

Free CLPL session for practitioners

Recommended for: primary and secondary practitioners with responsibilities for **sciences, technologies, food & health and business studies** planning for learning and transition experiences from second level to senior phase.

Food and drink offers an engaging and practical context for learning within Curriculum for Excellence and provides opportunities for interdisciplinary learning and for rich and meaningful partnerships between schools, the food and drink organisations and other partners such as academia and research organisations. This event aims to further explore these links and demonstrate to practitioners how to use food and drink as a context for delivering a range of subjects.

4pm: Registration, Light Refreshments and Networking

5pm: Micro Presentations:

- Learning Opportunities from the farming sector, Royal Northern Countryside Initiative
- Developing a business using local produce, Farm shop tbc
- Linking real life industrial applications to food education in schools, Scottish Food and Drink Federation
- How industry can support schools - demonstrating science in the workplace, Food and Drink Manufacturer tbc
- Rowett Institute – opportunities in nutrition and health
- How the hospitality sector can support learning in schools - real life careers in hospitality, Thainstone House
- Food Standards Scotland - Sharing resources and the jobs available in FSS, Food Standards Scotland
- What qualifications can support food education?, SQA
- Food & Drink Research, Consulting and Education (HE & FE), SRUC
- What we can offer schools, STEM

6.10pm: Marketplace and Networking - an opportunity for practitioners to speak to speakers to find out how they can support delivery of the curriculum using food and drink as the context for learning

7.00pm Close

Delegates can sign up by contacting Ceri Ritchie on ceri.ritchie@sac.co.uk
