

Biology Residential

Part 1: Thursday 31 October -
Saturday 2 November 2013
Part 2: Friday 14 - Saturday 15 March 2014

A 2 part residential course for Secondary Teachers of Biology

Building on the success of previous events, this course will focus on CfE up to National 4 & 5. Through the programme, a detailed copy of which is available at www.sserc.org.uk we offer a range of activities with a focus on practical work.

Combined with opportunities for professional networking, the course offers an excellent way of keeping up-to-date with developments in your subject area.

We will use the laboratory facilities at SSERC in Dunfermline. All meals and overnight accommodation at the nearby King Malcolm Hotel are included in the Course Fee of £100. Only 20 places are available, so early application is advised.

Funding from the Scottish Government allows us to provide each delegate with equipment and teaching resources with a value of some £200 to help the implementation of activities in your school.

During part 2 of the residential we will ask you to share with your fellow participants your experiences of using these resources in your classroom.
