

Please bear with us. We are working hard to design our site to try to be as accessible as possible to all, regardless of ability or disability. All reasonable effort has been made to ensure that as much of the website as possible meets at least the 'AA' standard as set out in the WCAG 2.0 Guidelines.

You can visit the [WCAG Accessibility Guidelines 2.0](https://www.w3.org/WAI/standards-guidelines/wcag/) site to familiarise yourself with all available guidelines.

Adapting websites

For guidance on adapting websites to individual needs see www.bbc.co.uk/accessibility

PDF documents

Some of our publications such as forms and leaflets are available to download in Portable Document Format (PDF). PDF files can be viewed with **Adobe Acrobat Reader** which is a free download available from the Adobe website .

The Adobe website provides information to help make Adobe PDF files accessible to users with visual disabilities, it also has **online conversion tools which make PDF's more accessible.**
