

Judging Proforma

Sustainable Solutions – Assessment Proforma

Notes:

Below are some suggested points to consider when assessing the groups.

We are looking for the groups to both demonstrate their sustainable road design and their understanding of the SDGs.

Please use your professional judgement and consideration

Mark:

1. Not addressed
2. Partially met criteria
3. Met Criteria
4. Exceeded criteria
5. Outstanding

Technical Understanding

1. Can verbally explain the type of jobs involved in designing a road
2. Talk about their own impressions of their road and why and how they have incorporated the SDGs
3. Has a clear understanding of why the SDGs exist and how they relate to the world around us.

Case Study (their road)

4. Demonstrate an understanding of the importance of planning in creating successful and sustainable roads.
5. Present, and evidence, their decision-making process. How and why they came to design their road (demonstrating problem solving and working together is important).

Presentation Skills

6. Road and other visuals well-presented and annotated
7. Presentation clear and addressing key criteria
8. Demonstration of group working / contribution
9. Q&A – groups ability to respond to questions and demonstrate a core understanding of the SDGs?

Overall
