

PLAYGROUNDS – the ice last week meant we had to shut off the back playground. The children and SFLWs (who supervise the playground) said how much better it was. We tried this again to this week and have agreed, from Monday onwards –

- P1-3 will play in the front playground
- P4-7 will play in the original P5-7 playground

The back playground is best described as cold & bleak, even in the summer, so no one will be upset not to have it as their main “play” area.

STAFFING – We welcome Jodie Ritchie to our team. Jodie joins our team as a Support for Learning Worker.

HEAD LICE AND NITS - Head lice and nits are very common in young children, and we recommend you check your child’s head regularly. They are not caused by dirty hair and are picked up by head-to-head contact, which there seems to be a lot of in primary schools! More advice on spotting & treating can be found –

DIGITAL LEARNING (iPads) – a request from Glasgow City Council - As part of Glasgow’s Connected Learning Programme, we remain committed to gathering meaningful feedback from staff, pupils, and parents on the progress and impact of this significant investment since its launch in 2018.

To help us continue improving digital learning, teaching, and assessment across the city, we are once again issuing our bi-annual Connected Learning surveys. The information gathered will guide our next steps and ensure that the programme continues to meet the needs of all learners and staff. Please have your say –
