RWC

EXTERNALITIES THAT IMPACT CHOICE/DECISIONS/OUTCOME

REAL-WORLD CHALLENGES
SOCIETY & ECONOMY
LOCAL, INTERNATIONAL MARKETS
RELEVANCE
AWARENESS
SOLUTION FOCUSED
RESILIENCE

- Impact of politics on an economy
- evolving technology changes the workplace
- &

CYP will develop their understanding of digital tools and systems, ethical considerations and how to think critically

CREATIVE, CRITICAL THINKING
FEEDBACK
ENTREPRENEURIAL
DECISION MAKERS

CAUSE + EFFECT OF DECISIONS + CHOICES

IDEAS + APPROACHES USED WITHOUT RESOURCE CONFINEMENT (THROUGH DIGITAL PLATFORMS)

With a through to CYP understand how efficiency and automation can be enhanced through a with technology, the looking to improved connectivity, communication, data collection & analysis. Resulting in innovation & new solutions.

understand the differences between "truth/fact/opinion/alternative facts" mis/dis info

TO ALLOW CYP TO MAKE INFORMED CHOICES

Promoting partnership working, and collaboration. Collaborative learning. Applied learning.

BRIDGING THEORY & PRACTICE
THEORY INTO PRACTICE
REAL WORLD CONTEXT
PROCESSES CHALLENGE
PERSEVERENCE

THROUGH AND WITH TECH →
* REAL-WORLD
* THEORY / PRACTICE
* SOCIALLY AWARE
↓
ETHICAL + RESPONSIBLE

Project based learning approaches to develop leadership and curiosity, creativity.

APPLIED APPROACHES
"NO POINT" (CREATIVE)

Creative Critical
- design thinking
- Systems
- problem solving

Entrepreneurship
Ideas generations

"Creative + Critical thinking" ?
would be with this 'Big Idea?'

External Factors + considerations from world around

Bridging Theory & practice.
Young people will be encouraged to analyse real-world examples of businesses or technological innovations to understand how theoretical concepts are applied in practice.
or... working on projects that require applying theoretical concepts to solve business or technological problems.

Theory + Practice.
CYP understand (recognised) the theory provides the "why" & "how" while practical application validates, refines & drives continuous innovation, creating a cycle of learning & advancement.

Creative and Critical Thinkers.
Encouraging young people to imagine new possibilities and explore new ideas that will create new solutions, products or ideas. Critical thinking. Helping young people to evaluate evidence, identify patterns and make informed decisions.
