

Lets Play Go Fish!

Shuffle the full deck of cards.

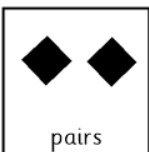

Dealer gives each player 5 cards.

The rest of the pack is placed in the centre on the table.

Each player looks at their cards to find pairs.

Any pairs are removed from hand and placed on the table.

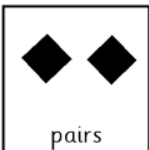

The player with the most pairs goes is called player 1 and they go first.

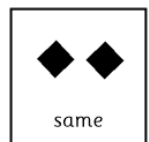

Player 1 picks a card from their hand and shows it to player 2.

Player 1 asks player 2 if they have the same card.

If player 2 has the same card player 1 makes a pair.

If player 1 can make a new pair they place the pair on the table

If player 2 can't help make a pair then player 1 takes a card from the cards in the middle of the table. If they can make a pair they keep playing.

When player 1 can no longer make a pair play passes to player 2. Above steps are repeated for player 2.

The player at the end with the most pairs is the winner.
