

Kerby

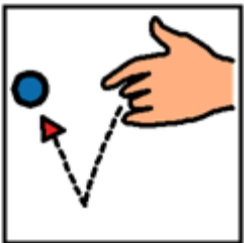

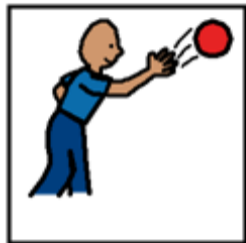

You need 2 player for this game

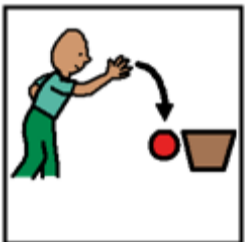

Choose a quiet street with a kerb at each side of the pavement

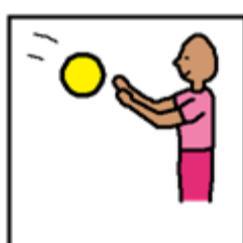

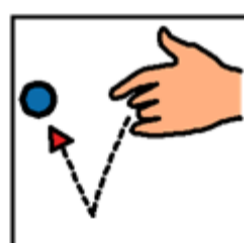

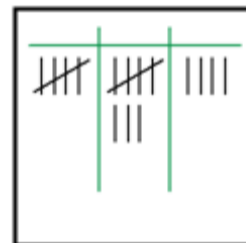

Stand facing each other on opposite sides of the pavement.

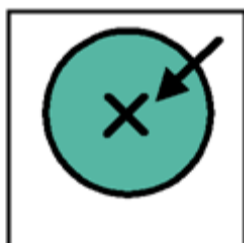

Player 1 throws the ball at the opposite kerb and tries to catch it

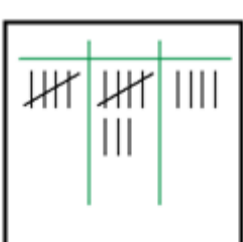

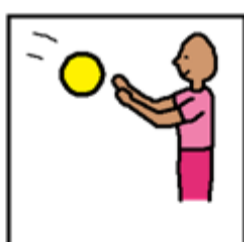

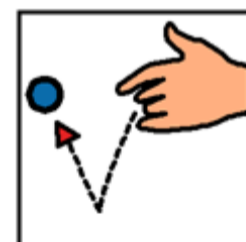

If player 1 misses the kerb then player 2 should try.

A point is given when the ball bounces back off the kerb and is caught by the player.

Once the player has scored they move into the middle of the road.

Each bounce and catch off the kerb earns a point.

Player continues until they miss.

Next person then takes a turn.

The winner is the person with the most points.
