

Do you want to play a game online tonight?

Last time I played, someone upset me.

I don't want to feel upset again.

He looks annoyed.

Why is he frowning?

They called me names last time.

Why is he shaking his head?

I feel the way I did when it happened.

Why would you make me feel like this again?

I don't want to play with you ever again!

I don't know what happened.

We all have different ways of understanding things and situations.

Sometimes it can be the same as someone else but sometimes it can be different.

Our thinking can't be seen by others and we can't see their thinking.

Sometimes, we think we know why someone says or does something.

Sometimes, we are right and sometimes we are wrong.

That is why we should try to share some of our thinking and ask others to do the same.
