

Nordic Slings

A socially distanced outdoor game for 2.

You will need

Instructions

Cut 4 lengths of string in different colours. About 2m for each length. Tie one end of each piece together and loop onto low branch/twig of a tree.

Tie a button to the other end of each piece of string to act as weights. This makes them easier to swing.

2 people stand stand 'socially distanced' facing each other. Each person holds a piece of the string in each hand.

At the same time each person swings the string in their left hand to the other person's left hand and catches the string sent to them. Repeat with the string in right hand. Keep going until the string is braided most of the way down. Tie and fasten around wrist to make a bracelet. Repeat so that each friend has one.
