

Perception

We all have different ways of seeing things and situations.
This is called perception.

I like carrots.

Carrots are my favourite food.

Sometimes we agree and sometimes we disagree.

I don't like carrots.

Carrots are the worst food.

This doesn't mean someone is lying if they disagree with us.
It just means we have a different opinion.

Sometimes this can be about our opinions.

What beautiful mountains!

Mountains? That's a fence!

Sometimes it can be about how we experience something.

Is it a rabbit or a bird?

Our perceptions can be different but still true.

Wow! This is amazing art! You can see how the artist felt torn between two ideas.

What?! I just see scribbles!
