

I need help

I might need help when

I am hurt

I feel sad

work is hard

I am confused

I am learning

something else happens

What can I do?

I can ask for help

I can show my help symbol

I can put up my hand

I can sign help

tell someone

something else

how can someone help?

talk to me.

come near to me

Ask "What can I do?"

sit with me

show me

something else

I don't want help.

I can say "no"

I can say "Wait"

I need space

I can show my stop symbol

I can try it on my own

something else

I must not

hit

shout

argue

swear
