

Growing Up

As we grow up, our bodies change. Sometimes it

When I was a baby, I needed help to do everything.

When I was a toddler, my body changed and I got a bit bigger.

As a child, my body changes, my baby teeth fall out and my adult teeth grow in.

As a teenager, my body changes, hair grows in new places, my body smells differently and my voice may change.

As an adult, my body may change. My hair may turn grey or white or fall out.
