

How my body may change

How my body may change

my speech
may
become
clearer

I may start
to learn
how to
move my
body.

I get taller

as a toddler

baby teeth
continue to
grow in

hair
continues
to grow

How my body may change

my speech
may
become
clearer

I might
start to
make some
decisions
for me.

I get taller

as a child

baby teeth
fall out
and adult
teeth start
to grow in.

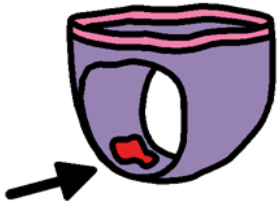

hair
continues
to grow

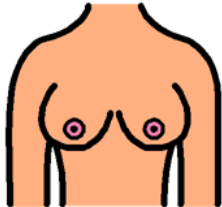

How my body may change

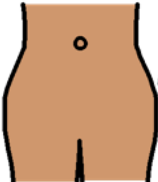

I may begin my period.

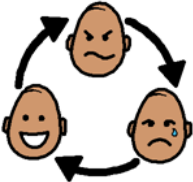

Hair may begin to grow around my vagina.

My breasts may get bigger.

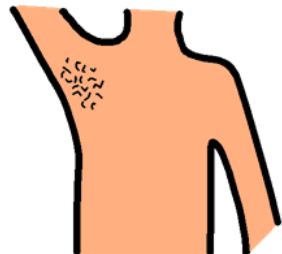

My hips may begin to change shape.

I may have sudden changes in my moods.

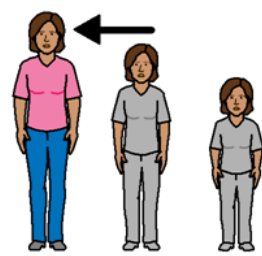

as a teenager

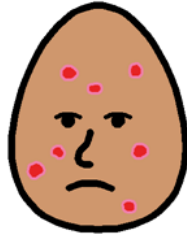

Hair may start to grow under my arms.

My sweat may start to smell.

I may grow taller.

I may develop spots on my face, neck, back and chest. This is called acne.
