

Is it a Report or is it Telling Tales?

It is a report if...

I am trying to keep someone safe.

I need help from an adult.

It is important.

It is urgent.

It is on purpose or deliberate.

It is harmful or dangerous.

Someone is hurt.

something else

It is telling tales if...

I want to get someone into trouble.

I can solve the problem myself.

It is not important.

It can wait.

It is harmless.

It was an accident.

I don't like the person.

something else

I am still not sure if it is a Report or Telling Tales.

Ask an adult for advice.

Write it down then read it back at a different time. Does this change how you feel?

If someone else has reported it. I don't need to report it.

something else
