

Dear New Teacher....

Message from families

Changing classes and teachers can be a challenging time for some young people.

It can also be worrying for us as families too.

We are not sure how our young person will be understood, or how they will cope with the changes and new personalities.

Giving the new teacher an outline of who our young people are, can help ease this transition and anxieties.

Message from Teachers

As teachers, it is good for us to have information from families that help us to better meet the needs of the young people in our classes.

Giving us their interests or telling us about their summer experiences or what they are worried about can help us ease anxieties and help us build relationships.

How to complete

This can be completed at home with the young person and then given in to school. It should be completed from the young person's perspective but if family have other information to be added in, this can also be done.

My details

My name is

My age is

My birthday is

At home I live with

At home, I speak

Do I have pets?

I get to school by

I go home by

Who takes me to school?

Who takes me home from school?
