## How can we create a Language and Communication Supportive Environment in Early Learning and Childcare?

A Resource for Early Learning and Childcare Practitioners

This practical guide is framed around the essential evidence-informed elements of **interactions**, **experiences** and **spaces** that are most supportive of **early language and communication development**.

The guide supports practitioners and leaders to establish, embed and sustain a language and communication supportive environment for all children.

The guide includes prompts for self-reflection and guidance on setting targets and reviewing progress.
