The Benefits of Extra-Curricular Activities

Dumfries Academy aims to provide a wide range of extra-curricular activities for pupils. These activities occur at lunchtime and after school. These activities bring many benefits. Allowing your son/daughter to get involved in extra-curricular activities at school is a wise choice, and it can be very important in helping them to develop many life skills. These skills include the following:

1. Time Management

One great benefit of your child being involved in extra-curricular activities is that they will learn about time management.

2. Getting Involved in a Wide Range of Interests

Getting involved in extra-curricular activities also allows students to get involved in diverse interests. The activities allow them to explore various interests that they may have.

3. Learning About Commitment

Pupils learn about commitment when they are involved in extra-curricular activities. When they join one of the activities or clubs, they commit themselves to the activity for a period of time.

4. Making a Contribution

Extra-curricular activities allow your child to make a contribution in some way. It shows that they are getting away from just thinking about themselves and contributing to the wider life of the school.

5. Raising Self Esteem

Being involved in extra-curricular activities helps to raise self-esteem. Everyone wants to find something that they are really good at, and extra-curricular activities provide them with a way that they can get involved in something and really shine, giving their self-esteem a boost.

6. Building Relationships

Your son/daughter will also have the benefit of building relationship skills when they get involved in extra-curricular activities. Pupils need to get involved in social activities and learn how to act appropriately in social situations and these activities give them a chance outside of school to do this, while they are still being supervised by adults.

We offer a full programme of extra-curricular activities which take place at lunch time, weekends and after school.

The extra-curricular programme gives our pupils the opportunity to develop skills and qualities such as initiative, interpersonal skills, independence of thought, problem solving, project management, having a positive attitude and working well in a team, all of which are very important life skills.

Whilst good qualifications are obviously important, facilitating access to the first step of the chosen career ladder, it is these additional skills that will aid further progress.

Benefits of Regular Exercise

If you exercise regularly you will:

- Increase your endurance
- Have healthier muscles, joints and bones
- Increase your metabolism
- Have more energy
- Experience a sense of wellbeing
- Sleep more soundly

Activity tips for a healthy lifestyle

- Ask your son/daughter what activities they enjoy. Encourage them to follow their interests and make activity fun and enjoyable.
- Encourage your son/daughter to spend more time outdoors and become involved in team or individual sports and activities.
- Encourage them to walk or to do activities with friends.
- Do some regular activity together as a family to help your son/daughter develop a positive attitude towards physical activity.
- Praise and encourage your son/daughter when they are taking part in an activity – particularly if they are learning a new skill. Keep feedback positive – and don't push too hard. If they enjoy the experience they'll keep taking part.
- Be a role model. Young people learn by watching what parents do so show your son/daughter you enjoy and value activity by taking part yourself. Even simple things like walking instead of using the car can have a big influence.

Extra-Curricular Clubs and Activities 2025-2026
