**National e-Learning Offer** 

UUO.

# **DYW Live Programme**

### What is DYW Live?

DYW Live is an online learning programme for all schools across Scotland, to support their delivery of work-related learning including employability skills, career pathways and industry connections.

### Who is DYW Live for?

It is targeted at any learner from **P4 to S6**. You can filter the programme offers according to age groups, curriculum areas and delivery times via the drop-down menu, an image from the web space is shown below.

### How does it work?

Our DYW Live Partners deliver live engagement sessions for learners through your Glow account. These include either one-off (standalone) sessions, a sequence of lesson, Certificated courses or work placement experiences.

Sessions are transmitted directly into the classroom, most sessions are interactive and you can post comments via the chat function on behalf of your learners or participate directly in conversations via webcam and microphone.

### How to Register?

View the full programme at <u>https://www.e-sgoil.com/dyw/</u> to find out more about this exciting opportunity to work together and tackle some of the big challenges ahead. Registration is available on each course page.
