

Every deliberate fire has victims, costs and consequences. Fire setting is an offence.
Don't accept it, report it.

What's the problem?

Every week, over 300 fires are deliberately started in Scotland. These fires blight our neighbourhoods, damage the environment and can sometimes cause injury or even death.

What we do with your information

Crimestoppers passes information to Police Scotland without compromising the callers anonymity. Police Scotland have the legal responsibility to investigate crimes, make arrests and charge people in order to bring them to justice.

How you can help - don't accept it, report it

All we want you to do, is tell us anything you know about fires that have been started in your area. Call the independent charity Crimestoppers anonymously if you have information about who is responsible. You won't have to give your name or go to court.

Scottish Fire and Rescue Service - How we can help

If you have any concerns about a child or young person playing with or showing an unhealthy interest in fire, please contact your local community fire station.
