

# ST PETER'S RC PRIMARY SCHOOL

## Educator Focus

### What happened?

STEM careers carousel for P7 pupils. The speakers addressed small groups about STEM subjects at school.

- William Hinckley – Investment Analyst at Welltower and Head of Europe at Real Impact Tracker
- Jemma Craig – Founder & Creative Director at Meraki Concept Studio

Speakers also demonstrated some of the activities they do as part of their jobs.

### What did the Young People learn?

Pupils gained an insight into a range of careers and different progressions they can follow after school.

They were able to gain experience using some different types of technology (such as virtual reality headsets and measuring tools).

Pupils also learned about which STEM subjects will allow them to follow particular career paths.

Local business leaders enjoyed supporting the school and increasing their visibility in the community. Some business leaders were keen to participate in the project as a contribution to their ongoing CPD.

### Career Education Standard

- I can discuss the relevance of skills to the wider world and make connections between skills and the world of work.
- I can explain to others my ambitions/what I would like to do and look for ways to achieve them/that.
- I can recognise the skills I have and need for work.
- I can identify people in my network who help me broaden my horizons.

### Curriculum For Excellence

- TCH 2-12a - I can extend my knowledge and understanding of engineering disciplines to create solution.
- TCH 2-15a - I can create, develop and evaluate computing solutions in response to a design challenge.
- TCH 2-05a - I can investigate how product design and development have been influenced by changing lifestyles.
