

What is a Champions Board?

Falkirk Champs is a place for care experienced young people to come together and collectively shape the future of local care services. Our aim is to:

- **Engage** care experienced young people in meaningful discussions, fun activities and constructive projects.
- **Enable** care experienced young people to feel knowledgeable, respected and confident in sharing their opinions.
- **Empower** care experienced young people to be influential and valued members of their communities.

The Champions Board is putting you in the driving seat, enabling you to share insight into YOUR lived experience and empowers you to make a positive change through partnership working with your Corporate Parents.

Creating a meaningful conversation between you and your Corporate Parents will enable you to directly influence and eventually redesign services that affect you.

Young people who join the Champions Board will have opportunities to make new friends and engage in activities that enhance skills and improve life outcomes.
