

INCLUSION SUPPORT AND DEVELOPMENT GROUP

First and Second Level (Primary and Secondary colleagues)

2026-2027

This is an opportunity for school staff to network, share good practice and develop their understanding of approaches which support inclusion.

The sessions are facilitated by representatives from Glasgow Educational Psychology Service (GEPS) and Speech and Language Therapy Service (SLT).

It is recommended that participants attend **all** six sessions and that there are structures in place to support sharing of their learning with colleagues in their respective establishments.

Places are limited to **two** members of staff per establishment.

"The practical way it was delivered and the engaging tasks. The course was very engaging and made me reflect carefully on my practice".

"I've noticed a shift in my practice, and this has led to positive changes. My practice and language are more inclusive."

The group provides a forum to:

- Reduce barriers and support the needs of children in your class/ establishment
- Increase awareness of universal and targeted support
- Increase awareness of information and approaches which support inclusive education
- Consider how to promote a communication supportive environment
- Discuss case-related issues with colleagues from other establishments, GEPS and SLT
- Implement supportive strategies and reflect on their success
- Explore frameworks and resources to support staged intervention planning
