Hazard/ Concerns	Risk Rating	Control Measures	Residual Risk Rating	Further Action Required
------------------	-------------	------------------	----------------------	-------------------------

Exposure to Covid-19 infection as a result of direct or close contact with others

- Two metre physical distancing between adults should be maintained.
- Two metre distancing between adults and children should be maintained.(recognised not always possible e.g. early years or ASN)
- In secondary schools encourage physical distancing or physical contact as much as possible between young people, particularly in the senior phase.
- Avoid assemblies or other typically large gatherings.
- Wherever possible in primary schools, keep children and young people within the same groups for the duration of the school day with the same teacher and support assistants. – Zones in Playground / Pods with nursery and P1 open area
- In secondary, consider keeping groupings together during the day via alternative timetabling, during lunch sittings and encourage distancing particularly in the senior phase. Consider e.g. possible soft changeovers and creative timetabling e.g. double periods or teachers moving rather than learners
- Adults in educational establishments do not need to wear face coverings as two metre distancing should be maintained, however may decide to opt to do so through personal choice.
- There may be occasions where this is not possible. Where adults cannot maintain a two metre distance, are interacting face to face for 15 minutes or more, face coverings should be worn.
- Introduce a flexible approach to the physical reconfiguration of teaching and non-teaching areas, taking account of hygiene, staffing, supervision and individual learner and staff needs.
- Seating, desks and other heavy traffic work areas e.g. copier rooms should be safely spaced to promote physical distancing.
- Decrease physical interactions generally by looking at staff and pupil movement throughout the establishment.
- Consider one-way or keep left systems, staggered breaks and starts.
- Access classrooms directly from outside where possible.
- Encourage staggered use of staffrooms, break areas and offices to limit occupancy at any one time. Encourage cleaning items after each use including cooking equipment, crockery and cutlery.
- No sharing of food and drinks including milk
- Maximise outdoor space throughout the day ensuring those with complex needs or disabilities are not disadvantaged and hygiene arrangements are in place for shared equipment.
- Consider integrated procedures and guidance for pupils leaving and returning to school e.g. lunchtime
- Encourage parents to consider the most appropriate travel arrangements

Exposure to Covid-19 infection as a result of poor personal hygiene

12
High

- Ensure that all staff, pupils and visitors are aware of the high importance of frequent and thorough handwashing / sanitising.
- Ensure that all staff and pupils frequently wash their hands with soap and water for 20 seconds and dry thoroughly.
- Ensure that sufficient handwashing / sanitising facilities are available.
- Ensure that all staff and pupils clean their hands on arrival at the setting, before and after eating, and after sneezing or coughing.
- Ensure that all staff and pupils use a tissue or elbow to cough or sneeze and use lidded bins for tissue waste cleaning hands afterwards.
- Ensure that help is available for staff and pupils who may require assistance in accessing hygiene facilities.
- Anti-viral sanitising wipes provided for regular personal use at computer keyboards, photocopiers and telephones.
- Ensure that all staff and pupils are encouraged not to touch their face.
- Ensure that help is available for children and young people who have trouble cleaning their hands independently.
- Consider how to encourage young children to learn and practise these habits through games (no outward singing).
- The majority of staff in education settings will not require PPE beyond what they would normally need when supporting children and young people in their care, even if they are not always able to maintain a distance of two metres from others. PPE will be provided but is only required in a very small number of cases including:
 - ✓ Where adults cannot maintain a two metre distance and are interacting face to face for 15 minutes or more
 - ✓ Work with children and young people whose care routinely already involves the use of PPE due to their intimate care needs
 - ✓ Where a child, young person or other learner becomes unwell with symptoms of coronavirus and a distance of 2 metres in the designated area prior to parent collection cannot be maintained or there is risk of splashing from a cough, spit or vomit.
 - ✓ Any other task that would routinely involve PPE e.g. providing first aid
- Ensure government / public health advice is followed for any member of staff, pupil or visitor showing symptoms of infection.
- Water dispensers can be used with care and those doing so should sanitise their hands before and after use. To reduce usage, staff and pupils should bring their own filled bottle each day which can be topped up during the day if required. Direct access by primary aged children should be avoided. Supervision may be necessary.

Increased risk of exposure to Covid-19 as a result of poor environmental hygiene

12
High

- Prior to staff and pupils returning, a clean will take place in all areas including the use of electrostatic spraying.
- An enhanced cleaning regime will be in place including an increased focus on high intensity touchpoints such as door furniture (push plates, handles), wall furniture (light switches, sockets) and sanitary ware to ensure those spaces are sanitised more regularly.
- All areas will be electrostatically sprayed weekly with a protective covering.
- A Start Back kit will be provided to all establishments including disposable gloves, tissues, towel and soap dispensers, viral wipes and aprons.
- Introduce a clear desk policy and remove unnecessary items from classrooms and work areas to ensure all areas are more easily cleaned
- Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts).
- Limit the use of shared resources, including those usually taken home. Keep bags off desks and worktops. Any shared materials and surfaces should be cleaned more frequently.
- Anti-viral sanitising wipes will be provided for regular use at computer keyboards, photocopiers and telephones.
- Lidded bins for tissues are emptied throughout the day.
- Where safe to do so it is good practice to keep windows and doors open to increase natural ventilation and reduce contact with door handles. Internal fire doors should never be held open (unless assessed and provided with appropriate hold open and self-closing mechanisms which respond to the actuation of the fire alarm system).
- Although Health Protection Scotland regard this as a non-airborne virus we have taken the following industry guidance from REHVA (European Collaboration Network):
 - Ventilation Systems bring air into and extract air out of buildings and therefore should remain active – these have been switched on 24/7.
 - Where air conditioning units cannot be fully fresh air intake these will be switched off.
 - The opening windows or doors in these areas (except fire doors) should be used to regulate heat alongside the ventilation system.
 - Server rooms will remain on as no personnel occupy these spaces.
- Consider regular meetings with cleaning staff to confirm cleaning regimes, adjust as necessary to take account of high traffic or problem areas and ensure that levels of supplies are maintained.
- If a pupil, member of staff or visitor has been confirmed as being tested positive for COVID-19 - the Facilities Officer will immediately arrange an electrostatic spray of the entire premise. The product used will

Additional Local Concerns
To be completed by assessor

- Classroom doors and windows to be open as often as possible
- Anti Virus wipes in each class & computer suite
- Segregated toilets for Maxwellton and Greenburn staff and pupils
- No one to enter the school office area. Use of office window for all.
- Staffroom sanitising station to be put in place. All staff to take home cutlery and crockery. No food to be left in staffroom.

Increased risk of exposure to Covid-19 and its effects as a result of poor communication

12
High

- All staff are aware of, and have access to, the full range of Corporate guidance on managing risks associated with Covid-19 including Education Resources Safe System of Work – Covid-19 Working Safely in Educational Establishments.
- All staff have been briefed on new working arrangements and understand the role they have to play.
- All staff have the opportunity to discuss new working arrangements on an ongoing basis and are aware of how to report concerns.
- Zero tolerance of symptoms should be in place and staff will follow strict compliance with current Government guidance in relation to Test and Protect and restrictions on movement.
- Staff understand Covid-19 infection symptoms and what to look out for.
- All visitors including parents, contractors and suppliers are advised not to enter the premise unless previous agreed by the management team.
- Contractors and suppliers are aware of local protocols for entering the premises and safe use of facilities such as toilets.
- The establishment provides regular, timely and clear communication about the approach they are taking to recovery
- All children and young people and parents are aware of the new arrangements and controls within and their responsibility in taking these forward.
- Consider parental surveys/communications to encourage walking, cycling, scootering, park and stride and remind parents of responsible parking, drop off and pick up.
- The establishment has arrangements for good quality dialogue with pupils about the new measures and any changes.
- The establishment will ensure its approach co-ordinates with wider easing arrangements nationally and locally to help promote a coherent feel to provision of services and will consider designating a member of management staff to act as a 'Covid Officer' to help take this forward. Regular meetings required to ensure risk mitigation actions remain in place and resolve any issues arising.
- The establishment will inform all staff and follow all instructions in relation to the following national programmes available to all establishments within South Lanarkshire :
 - ✓ Test and Protect programme
 - ✓ Fast access to Covid-19 testing for staff and pupils
 - ✓ Enhanced surveillance programme for schools and nurseries

Note on Manager Actions:

Heads and Managers should use this assessment to cover general and local matters specific to their establishment. This local information can be added above to create an overall action plan to help ensure everyone understands what is required of them and how they can best protect themselves and others.
