You can use Pages for both word processing and page layout. This newsletter template is set up for page layout, so you can manually rearrange pages and freely position text boxes, images and other objects on the page.

In word processing documents, your text flows from one page to the next as you type, with new pages created automatically when you reach the end of a page. To create a word processing document, choose a word processing template in the template chooser. You can also change this document to word processing on your Mac, iPad or iPhone by turning on Document Body in the Document controls.
