

MVP MODEL

Irvine Royal Academy

OVERVIEW

As part of our S5 Leadership Qualification, the MVP ambassadors receive training during their leadership periods. Our MVP Ambassadors then go in to S1 classes when they are timetabled for English and Maths. This is easier for us to co-ordinate as they go to English and Maths at the same time. We are lucky this session that S1 and S2 are in English and Maths at the same as our Leadership periods.

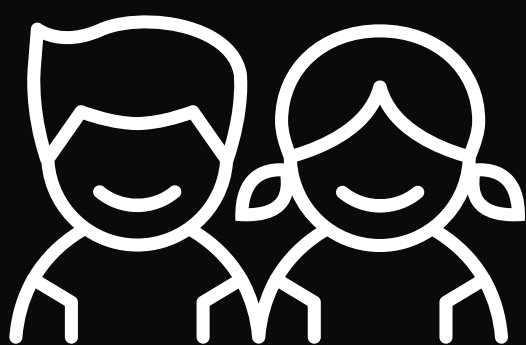

BENEFITS

- The benefits of this model include the fact that all year groups receive the input at the same time which allows follow up discussion in PSE lessons.
- It is much easier to co-ordinate and senior pupils do not miss out on class time.

CHALLENGES

- Getting senior pupils out of classes can cause issues however our new plans should rectify this.
- Previously it was hard to get pupils together to organise lessons however, again, having them timetabled 1 period a week should overcome this.

YEAR GROUPS

S5 delivering MVP lessons to S1 & S2 pupils.
