**Term 3
2025**

Please follow us on X to see the exciting things we are doing this year @RiverbankPSNC

The children continue to do a fantastic job as they head into their final term! I am proud of their efforts and hard work, and it is lovely to see their enthusiasm and support for each other as they push towards their goals. Let's keep up the great momentum and finish the year strong!

Interdisciplinary Learning

Our topic this term will be Sustainability, the children will be learning all about how we can take care of the planet. From exploring ways to reduce waste and recycle, to understanding where our food and energy comes from, it's a great opportunity for them to become more environmentally aware and make a positive contribution!

Health and Wellbeing

As part of our health and well-being learning we will be focussing on what it means to be 'Responsible and included.' The children have shown that they can make good choices, take care of their belongings, and help in the classroom. It's been lovely to see everyone working together, showing kindness to each other.

P.E

In PE this term the children will be learning all about athletics. They will be developing their running, jumping and throwing skills while building confidence, coordination, and team work. I look forward to seeing them challenge themselves, while having fun.

Thank you again for all your continued support – it really makes a difference, and I truly appreciate everything you do to help make your child thrive.

Literacy

The children will be continuing to learn their diagraphs this term, helping them to build stronger reading and writing skills. As they grow more confident with these sounds, they should be able to write with greater independence.

Numeracy

This term, we will be learning about measurement, including weighing, measuring length, and exploring capacity through lots of hands-on activities. The children will also begin to explore money and early division, helping them to understand how to share and group objects equally in a fun and practical way.

Homework

Homework will continue to be issued on a Monday and should be returned by Friday. Please continue to encourage your child to complete their tasks, as it really supports their learning and helps to build good routines.

Key Dates for the Term

Friday 23rd May and Monday 28th May. (May weekend)
Monday 16th June P1H School Trip Dynamic Earth
Wednesday 25th June school close 1pm
