

Rosshall Academy – S4 National 5 final evidence gathering

Evidence gathering has been ongoing through session 2020 – 2021 in order for teachers to make an accurate judgement of the grade young people should be awarded. In order to help students plan their time in the final stages of evidence gathering in May, we have put together a schedule of when final pieces of evidence will be completed for each subject. This stage of evidence gathering will be extremely important to the overall grade. If there are any concerns with when a final piece of evidence will be completed, we ask students to speak to their teacher who will support throughout the process. Please see link below for a letter to all Glasgow pupils from our Director of Education, Maureen McKenna.
