WHAT DO WE MEAN BY HOME LANGUAGE?

.....

In Glasgow city, for over 20% of the school population, their first language is not English. Bilingual and multi-lingual learners function in more than one language in their daily lives.

- ▶ Some of us use a different language or languages at home or at school depending on who we are speaking to.
- ▶ Some of us or some of our parents were born in another country where English isn't used
- ▶ Some of our parents or grandparents were brought up speaking or using another language for day to day communication

Parental Engagement

- Our partnerships with parents / carers
- Parent Council – meets every month - all Parents / carers welcome
- Pastoral support – regular contact from House Pastoral Care team
- Curricular Support – regular tracking, reporting and feedback
- Parental Support Calendar
- Principal Teacher of Employability and Family Engagement: Robert Clelland

We asked four young people what advice they'd give to someone experiencing feelings of hopelessness right now. This is what they told us.
