

St. Angela's Nursery Class
Aero Chamber Policy

Rationale

To ensure that there are procedures and routines in place to prevent the spread of infection.

Statement

In St. Angela's Nursery Class, we ensure that the spread of infection is kept to a minimum by strictly following the correct procedures and routines using NHS, GCC and Care Inspectorate guidelines.

Key Establishment Procedure

- For any child who has Asthma and has an Aero Chamber, this will be cleaned weekly by a member of staff.
- This will be done by the person responsible for Area 1 or SflW.
- Each individual Aero chamber will be cleaned using soapy lukewarm water.
- This will be soaked in water for 15mins then rinsed in clean water and left to air dry.
- This will be done every Wednesday and recorded on the Aero Chamber cleaning sheet., this will be displayed in the Kitchen.
- Within this policy there is a detailed diagram explaining the procedures for cleaning.
- Once the Aero Chamber is completely dry it can be put back in the child's individual tub.

Roles and Responsibilities

Team Leader – To ensure that all staff, parents and users are aware of and are following the correct procedures.

Child Development Officers & Support for Learning Staff – To ensure that they are aware of and adhere to the Aero Chamber Cleaning Policy.

Key Documents

- Health & Social Care Standards (June 2017)
- Exclusion Criteria for Childcare and Childminding Settings.
- Infection Prevention and Control in Childcare Settings.
