## What is bullying?

Bullying is both behaviour and impact; the impact is on a person's capacity to feel in control of themselves. This is what we term as their sense of 'agency'. Bullying takes place in the context of relationships; it is behaviour that can make people feel hurt, threatened, frightened and left out. This behaviour happens face to face and online. (respectme, 2015)

Bullying is a breach of the UN Convention of the Rights of the Child.

Bullying relating to an individual's Protected Characteristics is unacceptable
