## **Learning Ideas**

By observing and researching features of our solar system, I can use simple models to communicate my understanding of size, scale, time and relative motion within it. Comparative sizes
using various
resources (e.g. if the
planets were fruits)

Live stream from the ISS

Fiction and non fiction books about the solar system

Using technology (computer programs, internet, books etc) to learn about technology used during Tim Peake's mission

Act out the orbital patterns of using children as sun and planets
