

Keeping Safe at Clydeview Academy

Wash your hands

frequently and thoroughly, for at least 20 seconds. Use alcohol-based hand sanitiser if soap and water are not available

Cover your mouth and nose

with a tissue or into your elbow when you cough or sneeze, then throw the tissue into a bin and wash your hands

Stay at home

if you have:

- a temperature
- a new, continuous cough
- a loss of taste or smell
- someone else in your household experiencing any of the above symptoms

Clean and disinfect

your workspace when you enter the classroom and any surfaces and objects that people may frequently touch

Avoid touching

your eyes, nose and mouth with unwashed hands

Avoid close contact

by respecting physical distancing measures in classrooms and social areas
