

Community Climate Asset Fund

A Scottish Government fund
administered by
Keep Scotland Beautiful

Supporting the green recovery
in Scotland's communities

Inverkip Primary School have been awarded a grant of **£3680.27** for outdoor resources to help the community of Inverkip to reduce local carbon emissions through improving our school grounds, encouraging eco-friendly and sustainable life-long practices within our pupils to work with and support our local community.

This will be achieved by growing our own produce and reducing waste within the community by minimising the use of non-degradable and recyclable packaging.

Find out more at our Twitter page: @InverkipPrimary and follow our journey!
