Kilmacolm Primary School
Vision, Values & Aims

Our school values of
K - KINDNESS
P - POSITIVITY
S - SUCCESS
are at the heart of
everything we do in KPS!

We aim to provide education and care of the highest quality which fosters creativity and confidence, develops every child's skills, personality and talents and ensures they can achieve their full potential academically, emotionally and physically in a safe, happy and motivating learning environment which is at the heart of our community.

We would like every child in KPS to
Love Learning... Learning for Life
and become
SUCCESSFUL LEARNERS
RESPONSIBLE CITIZENS
EFFECTIVE CONTRIBUTORS
CONFIDENT INDIVIDUALS

INTRODUCTION

Welcome from the Head Teacher

Dear Parents and Carers

A very warm welcome to Kilmacolm Primary School and Nursery Class. This handbook is designed to give you an insight into our school and nursery, our priorities, expectations and vision for the future and to provide you with useful and practical information. I hope you find it helpful and interesting.

We offer the pupils a variety of activities to help them become successful learners, confident individuals, effective contributors and responsible citizens. In KPS, we aim to offer all pupils the highest possible quality of education. We endeavour through our curriculum and our extra-curricular activities to foster academic and personal development in a caring and challenging environment so that each child can achieve their full potential.

We hope that your child's journey with us will be a very happy and worthwhile experience. We hope that they will leave us with rich and happy memories of their time at Kilmacolm Primary and Nursery Class.

We are extremely proud of the awards we have been given: Scottish Education Award (2018), Gold Sport Scotland Award (2019), Digital Schools Award (2021), Gold Reading Schools Award (2021), Gold Rights Respecting Schools Award (2021) and STEM Nation Award (2025).

Education is a partnership between school and home and by working together we can ensure that the children's learning experience is of the highest quality. All at Kilmacolm Primary regard the partnership between home and school as vitally important and extremely beneficial to the education of your child.

At all times you will receive a warm welcome at the school and nursery and we will endeavour to assist you in any way we can. Please have a look at our school website, you will be able to access the School/Nursery/Class Sway Newsletters. Should you require further information please do not hesitate to contact the school/nursery to arrange a visit when I will be delighted to meet with you.

I look forward to working in partnership with you over the coming years.

Yours sincerely

Simone McCredie

Simone McCredie
Head Teacher

KILMACOLM PRIMARY SCHOOL and NURSERY CLASS

Staff List

Session 2025/26

Simone McCredie HT
Lynn McPherson DHT

Class Teachers

P1 - Audrey O'Donnell
P2/1 - Alison Gemmell & Christine Carruth
P3/2 - Emma Nicholson
P4/3 - Zoe Boyle
P4 - Emily Bradley
P5 - Emma Wilkins
P6/5 - Laura Griffin
P6 - Caroline Gilmartin
P7 - Lindsay Hughes (Stephanie Kretowicz - maternity leave cover)

RCCT and Support for Learning Team - Christine Carruth, Wendy McKeegan and Karen Jamieson

Clerical Staff - Jan Johnston & Claire Leitch

Pupil Support Assistants - Hazel Colville, Isabel Docherty, Linda Gemmell, Jackie Hodge, Marie McGerr, Denise McParland, Frances Ritchie and Isaac Dunning

Nursery Staff - Lisa Conway (Depute), Tracey O'Donnell (Senior EYECO), Laura McDonald, Rebecca Loughrey, Amy Woodcock, Gail McMenemy, Dorothy McCormick, Lynne Greene (EYECOs), Mhari McNeil & Sam Brown(EYSAs)

Janitor - Alec Henderson

Catering Supervisor - Jackie Dunn

This is our staffing for 2025/26. This may change for session 2026/27

School Information/Contact Details

School Address:

Kilmacolm Primary School and Nursery Class
Churchill Road
Kilmacolm
PA13 4LH

Telephone: 01475 715812

E-mail: simone.mccredie@kilmacolm.inverclyde.sch.uk

Website: <http://kilmacolm.inverclyde.sch.uk>

Twitter: @KilmacolmPS (school)
@kpsnurseryclass (nursery)
(all classes have a Twitter account - you can find details on the website)

Groupcall: The school/nursery will contact parents/carers via email/text using Groupcall

School App: We have a school app that keeps parents up to date with events, dates and news. If you would like to download the app, please contact the school office for the username and password.

The present roll of the school is 222 pupils in 9 classes from Primary 1 to Primary 7. We also have a nursery class which offers 32 places. The school is non-denominational and co-educational.

Concerns

If parents have any concerns relating to their child or any aspect of school we would ask that they contact the school office as soon as possible. If parents wish to speak to a class teacher, we will arrange an appointment at the earliest opportunity. We would ask that if at all possible, parents avoid coming in to speak to teachers first thing in the morning as this is a very busy time for teachers. If parents wish to speak to Mrs McCredie or Mrs McPherson please contact the school office and an appointment will be arranged as soon as possible. Alternatively, you can email Mrs McCredie (simone.mccredie@inverclyde.kilmacolm.sch.uk). This will enable the school to deal with concerns promptly. The school can arrange later appointments to suit working parents.

Complaints

Positive and open relationships are important and key to us. We are always keen to ensure that parents are aware of how we would prefer to handle situations when things maybe haven't gone as any of us would have liked.

Our initial hope is that we can resolve matters swiftly and informally. In the first instance, and where appropriate, we would ask that you contact the member of staff concerned. However, there may be occasions when the matter needs to be drawn to the attention of : Mrs McPherson DHT.. Please get in touch with them via the main school office. Thereafter, if a resolution is not reached then the matter can be raised with the DHT again.

Ultimately, if you remain dissatisfied, please get in touch with Mrs McCredie directly via the main office. We would hope that we would be able to resolve any concerns or complaints at school level, however if not, please refer to the council complaints process and contact Education Headquarters at: admin.educationhq@inverclyde.gov.uk : How to make a complaint - Inverclyde Council

Absence and Late-Coming

Please inform the school by telephone or via Parent Portal on the first morning of an absence. If pupils are absent from school with no reason, the school will make contact with parents to ensure that children are safe. If we are unable to contact the family, we will try emergency contacts. This contact will be made before 9.30am on the first morning of an absence and early after the restart after lunch in the case of an afternoon absence. If we are unable to make contact with a pupil's family, it will be necessary to contact other agencies to ensure that pupils are safe and well.

If you require a longer period of absence for your child, then please email Mrs McCredie.

Please keep the school informed of any changes of address or telephone numbers, both of your own and those of the emergency contacts.

We pride ourselves on our high attendance rates and we have high aspirations for all the children. Every month attendance is monitored and parents will be contacted via email if their child's attendance falls below the Inverclyde and Kilmacolm Primary School target of 95%.

Late coming

The school playground is open from 8.45am and is supervised until 9am when the gate is locked. Therefore, if pupils arrive after the bell, they should enter by the main entrance door where they should report to the school office before going to class. Any child arriving after 9am will be marked as 'late' on the register. We pride ourselves on our very good time-keeping so if a child is late more than twice in one week then the parents will be contacted via email and asked to improve their child's time-keeping.

Hone - School Communication

We communicate with parents in the following ways:

- School App
- Groupcall
- Email
- Phonecalls
- Sway Newsletters
- Face to Face Meetings
- X (school and class accounts)
- School Website

Visiting the School

Parents of Primary One pupils are invited to visit the school at induction days in May and June. These days offer an opportunity to meet other parents, gain information on the Primary One school curriculum, meet staff, and have a tour of the school building and school grounds. We also offer an open evening in December for parents who would like to visit the school in preparation for their child starting P1 (invitations are sent to all the local nurseries in November).

Getting to School

The Council has a policy of providing free transport to all primary pupils who live more than one mile from their local school by the recognised shortest walking route. This policy is more generous than the law requires. This means that the provision of transport could be reviewed at any time. Parents who consider they are eligible should obtain an application form from the school or:

Education Services
105 Dalrymple Street
Greenock
PA15 1HU

These forms should be completed and returned before the end of February for those pupils beginning school in August to enable the appropriate arrangements to be made. Applications may be submitted at any time throughout the year but may be subject to delay while arrangements are made. Children in the outlying areas of Kilmacolm, the country districts and Quarriers Village are transported by bus and taxi from appropriate pick-up points.

It is parent's responsibility to ensure that their child arrives at the pick-up point in time. It is also the parent's responsibility to ensure the child behaves in a safe and acceptable manner while boarding, travelling in and alighting from the vehicle. Misbehaviour could result in your child losing the right to free transport.

Parking around the school

The streets around the school can become very congested. We would ask that in the interests of pupil safety, parents decide whether bringing their car is a necessity. The school car park is strictly for staff/visitors to the school only. Parents are respectfully asked not to use the car park. We would also ask parents to be respectful of our neighbours and not obstruct driveways when dropping pupils off or collecting at the end of the day. We would also ask parents not to park on the street corners. We have agreed a voluntary one way system down Churchill Road at drop off and pick up times to ease congestion.

Walking and cycling to school

Whenever possible we would encourage our pupils to walk to school. Pupils should use the school crossing patrollers to cross the roads safely.

Pupils who wish to use their scooter/cycle to school, may leave their scooter/cycle in the bicycle shed. This is secured during the school day.

KPS Breakfast Club

The KPS Breakfast Club is open from 8-8.45am every morning. The cost is £1.00 (unless you are in receipt of free school meals) this is payable via Parent Pay. At 8.45am the Breakfast Club staff take the children into the playground to meet with their friends.

KILMACOLM NURSERY CLASS

Nursery Facilities

We are very lucky to have the most amazing facilities for the nursery children. We have a playroom in the school, a brand new outdoor classroom and access the school grounds and Duchal Woods.

Admissions

All 3 and 4 year olds, and eligible 2 year olds, in Scotland have a statutory entitlement of up to 1140 hours of funded early learning and childcare the term after their 2nd or 3rd birthday. If your child turns 3 between 01 March 2025 and 28 February 2026 you should be applying within the following application windows.

<https://www.inverclyde.gov.uk/education-and-learning/early-years/3-5-yr-old-places>

ANNUAL ADMISSIONS:

Application window to be presented at the Annual Admissions Panel for 3 - 5 years is:

- ELC Application window opens: 6th January
- ELC Application window closes: 17th January
- ELC ALLOCATIONS RELEASED TO PARENTS ON 19 MARCH 2025
- Applications received after 17th January will be considered as a late application and will be presented at the post admissions panel.

POST ADMISSIONS:

- Application window to be presented at the Post Admissions Panel
- ELC Application window opens: 18 January 2025
- ELC Application window closes: 4 April 2025
- ELC ALLOCATIONS RELEASED TO PARENTS ON 22 May 2025
- Any applications received after 4 April 2025 will receive their ELC allocation as soon as possible after the Post Admissions Panel is concluded.

HOW DO I APPLY?

- Application forms are available at any ELC local authority establishment, approved childminder or private / voluntary or independent nursery.

Application forms must be completed and submitted to the first choice provider along with:

- Proof of Residing Address - Either Council Tax Invoice / Gas or Electric bill to confirm your child's residing address.
- Birth Certificate to confirm your child's date of birth.
- We will not accept any application form without the necessary proof of documents
- FURTHER INFORMATION CAN BE FOUND IN DOCUMENT SECTION - ELC Completing application guidance 2025 / 2026

3 - 5 INTAKE TIMELINE:

Birthdate: 1 March - 31st August

Intake Term: New term in August (must be 3 years old when starting)

Birthdate: 1 September - 31 December

Intake Term: January

Birthdate: 1 January - last day in February

Intake Term: April

ALLOCATION OF ELC PLACES

- All ELC places are allocated in line with Inverclyde Council ELC Admission Policy. (Available in the document section)
- We will always try and allocate a place based on your preference(s) from your submitted application form); however, this is not guaranteed. If your preferred option(s) is full, a ballot may be necessary to allocate places alternative provider.

This can occur in the following scenarios:

- Oversubscription of applications for 3-5-year-olds.
- Oversubscription for certain delivery models.
- Oversubscription for specific establishments or childminder or PVI provider.
- If your preferred choices are unavailable, you will be offered a place in an ELC establishment within your ELC Defined Area based on your residing address. Childcare arrangements that are in place are not classed as a residing address.

Please note:

Having a sibling in the associated primary school does not provide any extra priority for ELC admission. ELC places and School places have no association.

PARENTAL INVOLVEMENT

Parents as Partners

Our parents are very much valued members of our school community. We value the importance of involving parents/carers in the life of the school and their engagement in their children's learning. We have an 'open door' policy to parents. We aim to meet with parents who have a concern as soon as possible, and can arrange meetings later in the day to suit working parents. You can also contact the HT via email simone.mccredie@kilmacolm.inverclyde.sch.uk or phone the school office.

Scottish Schools (Parental Involvement) Act 2006 led to the establishment of Parent Councils in primary, secondary and special schools. The Act recognises the vital role that parents play in supporting their children's learning. It places a duty on authorities to promote the involvement of parents in children's education and the wider life of the school.

All parents who have a child attending the school are automatically members of the Parent Forum for our school. Membership of the forum allows parents to have a say in the local arrangements to enable their collective view to be represented on matters such as the quality and standards of education at the school and other matters of interest to parents. These views can be represented, as appropriate, to the head teacher of the school, the Council and HMIE.

Parentzone Scotland

Parentzone Scotland is a unique website for parents and carers in Scotland, from early years to beyond school. The website provides up-to-date information about learning in Scotland, and practical advice and ideas to support children's learning at home in literacy, numeracy, health and wellbeing and science. Information is also available on Parentzone Scotland regarding additional support needs, how parents can get involved in their child's school and education. Parentzone Scotland also has details about schools, including performance data for school leavers from S4-S6 and links to the national, local authority and school level data on the achievement of Curriculum for Excellence levels.

education.gov.scot/parentzone

Parental Involvement in KPS

We will strive to ensure that you are -

- Welcomed and involved in the life of the school
- Fully informed about your child's education and learning
- Able to support learning at home
- Encouraged to express your views and take part in decision making (this is done through face to face consultations and via Forms questionnaires)
- Involved in forums for discussion and debate on educational policy

Learning and Teaching

There are a number of ways parents can become more involved with learning and teaching in school -

- Input to school questionnaires
- Attendance at Parents Evenings
- Attendance at induction days / curriculum workshops
- Attendance at showcases events
- Attendance at school shows/ events
- Input to class topics (parent 'experts')
- Input to themed days/weeks

Home Learning

Home learning supports the development of independent learning skills and provides parents with an opportunity to take part in their child's education.

It will -

- Allow children to practise and build upon what they have learned in school
- Encourage initiative and enable children to become independent learners
- Foster a partnership between home and school
- Give learners the opportunities to take more responsibility for their own learning
- Provide parents with an opportunity to be involved in their child's learning

Home learning (homework) will often be the practice or revision of work which the pupil has been taught in class i.e. reading practice, number processes or the memorisation of spelling words, tables or number bonds. Topic research tasks either written or practical may be set by the teacher to encourage independent learning.

Pupils should be able to tackle home learning tasks with a reasonable degree of independence and within a short space of time. Parental interest is much appreciated both in ensuring that tasks are completed and in giving moderate help if required. By signing your child's home learning you let us know that you are aware of the task set and consider that a suitable effort has been made. All teachers send home guidelines on the termly class Sway Newsletters outlining the structure and pattern of home learning tasks for their particular class.

HOW CAN PARENTS SUPPORT OUR HOME LEARNING POLICY?

1. By ensuring home learning is done while your child is alert.
2. By trying to provide a calm atmosphere with as few distractions as possible.
3. By discussing the work with your child and working alongside him/her, especially at the early stages.
4. By checking that the quality and presentation is of an acceptable standard and signing the work.
5. By discussing any problems arising from home learning with the teacher (by appointment please).
6. By extending the work when appropriate perhaps by supplying a relevant book, visiting the library or a place of interest connected with the work.

Above all by showing interest and praising good efforts. Teachers would appreciate it if homework jotters were covered and kept in a clean and tidy condition i.e. no graffiti

Read, Write, Count

The Read, Write, Count programme aims to support parental engagement in literacy and numeracy. Gift bags are distributed annually to all P2 and P3 pupils in Scotland by Scottish Book Trust. The gift bags contain essential literacy and numeracy materials to support children's learning, as well as advice and support to parents. Studies show a direct link between a strong family learning environment and progress in reading, writing and counting. In addition to the parent guide included in the gift bags, the Parent Club website offers a range of hints, tips and advice to help parents engage in their child's learning.

A Message from the Parent Partnership and PTF

The Kilmacolm Primary Parent Partnership represent the parents of Kilmacolm Primary!

Parent Partnership Constitution

Who are we?

Office Bearers - 2025-2026:

Co-Chair- Finlay Campbell

Co-Chair - Kirsten Robin

Treasurer- Lisa Vitrano

PVG Lead Signatory - Dale Coyne

PVG Deputy Lead Signatory - Gill Clark

What do we do?

Within our constitution, developed in 2022, our aims are clear...

- a) Promoting close co-operation and communication between parents and school staff
- b) Promoting equality and fairness
- c) The study and discussion of matters of mutual interest relating to the education and welfare of pupils
- d) Engaging in activities which support and advance the education of pupils attending the school

We help to plan and deliver school events and projects for educational benefit, parental support, fun and fundraising. These include: School Discos, Film nights, Quiz nights, Race nights, Christmas festivities, Summer BBQs and many more events throughout the session.

We represent the views of all parents and carers on the education provided by the school and on any other matters concerning pupils' learning and welfare.

We support the Head Teacher, Mrs McCredie, in shaping the School Improvement Plan and delivering on its goals, and we are always looking for ways to connect our school with wider community life.

Why do we do it?

We raise funds in creative ways that are used to meet specific targets and deliver tangible benefits. Throughout session 2024-2025, we funded over £7100 worth of educational resources and experiences to enhance the educational journey of the children from Nursery, all the way up to Primary 7. Details of our contributions can be found in our Termly Newsletters, found on our Facebook or X pages.

'It takes a village to raise a child' - this wonderful saying beautifully captures how our entire community must interact with children for them to experience and grow in a safe and healthy environment. We, the parents and carers of the Parent Partnership, take great satisfaction in playing our active role in the community, for the community.

If you would like to join us, please get in touch or come along to one of our meetings, with dates and times found within the School app.

Staff members: Simone McCredie, Lynn McPherson Wendy McKeegan, Lisa Conway, Jan Johnston

Co-opted Members: Jo Davies - Kilmacolm Community Council

We are also supported at our meetings by our local Councillors:

Cllr Wilson, Cllr McCabe and Cllr Curly.

The School Vision, Values and Aims

Our Vision

LOVE LEARNING, LEARNING FOR LIFE

Our Values

- K - Kindness
- P - Positivity
- S - Success

Our Aims

At Kilmacolm Primary School and Nursery Class we aim to provide education and care of the highest quality which:

- fosters creativity and confidence whilst developing every child's skills, personality and talents
- ensures they can achieve their full potential academically, emotionally and physically
- provides a safe, happy and motivating learning environment, at the heart of our community

Celebrating Success

In KPS we love celebrating the successes of the children! We do this on a daily basis in class, at the Leadership Assemblies and at the monthly Gold Assemblies. We also love sharing our successes across the school community in the termly Class Sway Newsletters, the monthly Sway School newsletters, posts on the school and class X (formerly known as Twitter) accounts, features in the Greenock Telegraph and on the school app.

GOLD Assemblies

Every month during our GOLD Assemblies, we celebrate pupil achievements in school, at home and out in the community. The children are encouraged to share their successes with the whole school community - the awards are nominated by the staff and the parents/carers. Each class teacher and PSA (pupil support assistant) also chooses KPS School Values Award winners throughout the year for children who have demonstrated that they are a KPS Role Model by displaying the school values.

Competitions

We participate in many local and authority wide events and competitions including:

- Horticultural Society Flower Show
- Kilmacolm Show
- Inverclyde Sporting Competitions and Events
- Inverclyde Music Festival

Leadership in KPS

We are very proud of how we promote pupil voice and leadership skills in KPS. Each leadership team has a specific role to plan, develop and organise resources, events and activities over the school session.

This session we have a number of leadership roles:

- P7 House Captain Team- This year we have 4 House Captains and 4 Depute House Captains. These children are role models for the rest of the school and help to organise and lead assemblies as well as representing the school at various events and when we have visitors.
- P7 Leadership Roles- Every child in P7 has the opportunity to experience a range of Leadership roles at KPS, these include: Being P1 buddies, monitoring younger classes and supporting lunch and after school clubs.
- #KPSLovesRights and Anti-Racism Leadership Team- At KPS we are committed to Building Racial Literacy and becoming an Anti-racist school. This group ensures that we celebrate events such as Black History Month and that our resources are reflective and inclusive. This team is also working towards our Re-accreditation of our Gold Rights Respecting Schools award to reflect the knowledge and understanding our children have of their rights and how these are protected at KPS.
- #KPSLovesSTEM Leadership Team- Here at KPS we love STEM! (Science, Technology, Engineering and Mathematics.) This team plan, organise and our STEM learning and events throughout the year. They also support with the care and management of our STEM Lab and resources.
- #KPSLovesLiteracy Leadership Team- This team helps to promote our love of Literacy at KPS. This is reflected in our re-accreditation of the Reading Skills Gold Award we achieved in June 2025. This group helps to plan and run Literacy events as well as helping ensure our Literacy resources are rich and engaging.

House System

We have four House Groups (chosen by the children) Cairn, Duchal, Knapps and Moss Each House has a P7 House Captain and vice-House Captain. Every term, the children participate in a variety of 'house' challenges and competitions. The winning house at the end of the year is presented with the KPS House Shield at the KPS Celebration event in June.

Positive Behaviour and Relationships

We believe that effective learning and teaching is dependent on positive relationships established through positive interactions between staff and pupil and between pupils themselves. We expect all members of the Kilmacolm Primary community to show respect for others. We pride ourselves on knowing our pupils well. It is essential that teachers provide a curriculum which challenges and motivates pupils. Class rules are negotiated with pupils at the beginning of each session and displayed in classrooms.

Through the authority policies (Inverclyde Anti-Bullying Policy and Inverclyde Promoting Positive Relationships and Positive Behaviour Policy) we aim -

- To create an atmosphere of mutual respect, trust and responsibility.
- To promote a positive school ethos through positive behaviour strategies and celebrations of success.
- To raise standards of attainment, behaviour and attendance for all pupils
- To involve parents, pupils and staff in setting rules/standards of behaviour within the school.
- To get pupils to manage their own behaviour effectively while respecting the rights of others.
- To develop social and citizenship skills through a variety of school contexts.
- To inform parents and pupils of any sanctions that will be taken for negative behaviour.

Where any pupils are achieving difficulties with behaviour, we believe that a positive nurturing approach, putting the child at the centre, is essential. We work closely with parents and apply a restorative and solution oriented approach to ensure that children are supported and work together towards a positive outcome for all.

Partnership Working / Community Links

School Community Links

We feel that it is very important for the school to play an active part in the life of the local community. As well as being available as a valuable resource, involvement with the community enhances the quality of teaching, learning, attainment and progress. It is vital that the school reaches out into the community in whatever ways possible in order to help the pupils develop skills, concepts and sensitivity.

Pupils are actively encouraged to participate in a variety of community competitions and activities including the Horticultural Society Flower Show, Agricultural Show, Inverclyde Music Festival and at the annual Kilmacolm Christmas Switch On.

As part of their project work, classes also make use of our community and the surrounding area by visiting places of interest in the village including Birkmyre Park, the local churches, shops, Duchal Woods and Kilmacolm Library. We have developed a positive partnership with local groups 'The Haven' and 'The Kilmacolm Eco Group', they have helped build and maintain our school garden for our 'Let's Grow and Cook Together' project. We have also developed an 'inter-generational project' with Campbell Snowdon Care Centre in Quarriers Village.

'Punto', a restaurant in Kilmacolm support the school through cooking! They have helped develop the children's pizza making skills with their highly skilled chefs. The children's pizza designs were featured on the restaurant's special menu!

The Coop on Kilmacolm has been a brilliant supporter of our cooking projects, they provide the ingredients for free!

The school promotes it's community links via X (formally known as Twitter) and through The Greenock Telegraph (Google 'Kilmacolm Primary School Greenock Telegraph' to see all the reports and stories about the school).

Community Facilities

The school is occasionally used by Community Education and other members of the community during the evenings or at weekends.

Anyone interested in using the school facilities for meetings should contact:

Booking Office,
Inverclyde Leisure
Greenock Sport Centre
20d Nelson Street
Greenock
PA15 1QH
Telephone 01475 213131

CHILD PROTECTION

Inverclyde Council Education Services has Child Protection Guidelines and Procedures which all schools and establishments are required to follow. Education Services work very closely with other agencies namely Police Scotland, Health and Social Care Partnership, NHS Greater Glasgow and Clyde and the Children's Reporter to support children. Common responsibilities of all staff are to protect children from abuse and exploitation, to respond appropriately when abuse is identified, and to ensure whenever possible that all children are able to exercise their right to be raised in a warm, stimulating and safe environment with the support of staff, their families and carers.

EQUALITIES

The Equality Statement for Inverclyde Establishments

'Inverclyde Education Service is committed to ensuring that no children or members of staff or service users receive less favourable treatment on any ground including age, gender reassignment, pregnancy and maternity, race, disability, sex, sexual orientation, marriage and civil partnership, religion or belief. We have a moral, social and legal obligation to mainstream and put equality at the heart of everything we do. We aim to promote a culture in which equality of opportunity exists for all. We are opposed to all forms of discrimination, direct or indirect, and aim to eliminate all discriminatory practices. We will ensure that, in our schools and other educational establishments, equality permeates the curriculum and underpins all our policies and practices in terms of access to education. We must ensure that all our children achieve their full potential to develop physically, emotionally and academically. Finally, we believe that equality and inclusion should be a given right, where everyone is valued and treated with respect.

THE CURRICULUM

The aims of Curriculum for Excellence are that every child and young person should:

- Know they are valued and will be supported to become a successful learner, an effective contributor, a confident individual and a responsible citizen.
- Experience a traditionally broad Scottish curriculum that develops skills for learning, skills for life and skills for work, with a sustained focus on Literacy and Numeracy, and one that encourages an active, healthy and environmentally sustainable lifestyle and builds an appreciation of Scotland and its place in the world.

The experiences and outcomes under Curriculum for Excellence are written at five levels, with progression to qualifications described under the senior phase. The curriculum is designed to ensure a seamless and progressive curriculum from 3-18.

Early Level - the pre-school years and P1 or later for some

First level - to the end of P4, but earlier for some

Second level - to the end of P7, but earlier for some

Third and Fourth - S1 to S3, but earlier for some

Senior phase - S4-S6 and college or other means of study.

The curriculum has been divided into eight areas, Languages, Mathematics, Social Subjects, Religious and Moral Education, Expressive Arts, Health and Well Being, Sciences and Technologies.

- Curriculum for Excellence ensures that children are motivated and active in their learning. They are encouraged to show creativity and are involved in setting targets for their own learning.
- All children have opportunities for a broad range of experiences.
- Progression builds upon previous knowledge and experiences. Children progress at a rate which meets their needs and aptitudes.
- Our curriculum responds to individual needs and supports individual aptitudes and talents. Learning experiences are coherent and relevant.
- All children should experience a balanced curriculum in their seven years in primary school.
- The curriculum should also offer challenge and enjoyment, breadth, progression, depth, personalisation and choice, coherence and relevance.

More information on A Curriculum for Excellence is available from:

<http://www.educationscotland.gov.uk/thecurriculum/whatiscurriculumforexcellence/index.asp>

In consultation with the pupils and staff.....we created the KPS Best Lesson to ensure consistency across all classes.

[The KPS Best Lesson](#)

Languages and Literacy

Language is at the core of thinking and at the centre of our learning. Through language our pupils gain much of their knowledge and many of their skills across the curriculum. The four main components of language are:

- Talking
- Listening
- Reading
- Writing

Curriculum for Excellence recognises the interdependency between these areas and strongly promotes that they are not taught in isolation.

Our core reading programme is **Story Sparks** and **Oxford Reading Tree**. We also use a range of class novels which develop the children's core reading skills. The other resources we use are:

- **Jolly Phonics** is used in P1 and P2 to develop the children's phonic's skills.
- **North Lanarkshire Active Literacy** involves teaching a weekly spelling rule.
- **Nelson Handwriting** is used to enhance our handwriting programme.
- **'The Big Write'** is an approach which provides a very clear structure for developing and assessing writing. This approach encourages children to develop their vocabulary, connectives, openers and punctuation (VCOP) through active learning.
- **Class Novels** are used to help further develop reading skills and as part of Interdisciplinary Learning including Global Citizenship themes

#KPSLovesWriting

We aim to help the KPS children become effective communicators, imaginative creators, and confident, accurate writers across different contexts to enable them to:

- Communicate clearly - develop the ability to write with accuracy, fluency, and purpose for a variety of audiences.
- Structure and organise ideas - create coherent texts that are well-structured, logical, and suited to the task.
- Use language effectively - select appropriate vocabulary, style, and tone to engage and influence the reader.
- Develop technical accuracy - apply spelling, grammar, and punctuation skills consistently.
- Express creativity and imagination - use writing as a tool for personal expression, exploration of ideas, and enjoyment.
- Reflect and improve - review, edit, and refine writing to enhance clarity and impact.
- The teachers plan engaging and effective writing lessons and learning experiences to ensure the KPS children:
- Develop skills to communicate ideas clearly and effectively.
- Structure writing appropriately for purpose and audience.
- Use vocabulary, style, and tone deliberately.
- Apply technical accuracy (spelling, grammar, punctuation).
- Create imaginative, functional and personal pieces of writing.
- Support self and peer-assessment to refine and improve writing.

#KPSLovesReading

We aim to help the KPS children become thoughtful, critical, and motivated readers who use reading for both enjoyment and learning and enable them to:

- Understand and interpret texts by finding meaning, making connections, and drawing conclusions.
- Enjoy and engage with a wide range of texts for pleasure, learning, and personal growth.
- Develop critical thinking by questioning, analysing, and evaluating what they read.
- Use reading to learn across the curriculum, applying skills to gather information and deepen knowledge.
- Appreciate language and style by recognising how writers use words, structure, and techniques.
- Reflect and respond to texts, sharing opinions and personal reactions.
- The teachers plan engaging and effective reading lessons and learning experiences to:
- Support learners to read for understanding, enjoyment, and engagement.
- Develop skills to interpret, analyse, and evaluate a wide range of texts.
- Encourage use of reading as a tool for learning across the curriculum.
- Foster appreciation of language, structure, and author's craft.
- Promote reflection, response, and discussion of personal viewpoints.

Read, Write, Count

Read Write Count with the First Minister is a National gifting programme, aiming to build parents' confidence and encourage families to include easy and fun reading, writing and counting activities in their everyday lives. Every Primary 2 and Primary 3 child in Scotland will receive a free bag with books, educational games and writing materials to be gifted during Book Week Scotland, in November. Resources for schools and extra activities for families to use at home can be found here.

Bookbug

Bookbug is Scotland's universal early years book gifting programme which supports families to read, sing, and play with their little ones from birth to give them the best start in life. Starting school is an exciting and challenging time for your child and your support at home makes a real difference to their learning. Look out for your Bookbug Primary 1 Family Bag, a free bag of books and activities your child will receive at school in November from Bookbug, to help support their reading, writing and counting skills. You will find films of the books being read aloud and more information about the P1 Bag here.

Scottish Booktrust Reading Schools

The Scottish Booktrust Reading Schools is an inclusive, exciting programme for all children - fostering a love of reading for pleasure. Research shows that reading for pleasure is crucially important for children's development. The challenge is open to all local authority and independent primary and secondary schools across Scotland, as well as, libraries and community groups. We were awarded the Gold Reading Schools award in 2021 and we were reaccruited in June 2025.

Modern Languages

We aim to help the KPS children become confident communicators and culturally aware global citizens through modern languages and enable them to:

- Develop listening, talking, reading, and writing skills in another language.
- Communicate confidently and effectively for a range of purposes and audiences.
- Understand and explore other cultures and perspectives.
- Use language creatively to express ideas, opinions, and feelings.
- Apply language skills across contexts for learning, work, and life.
- Foster lifelong language learning and curiosity about languages.
- The teachers plan engaging and effective French and Spanish lessons to:
- Develop learners' skills in listening, talking, reading, and writing in a modern language.
- Encourage confident, purposeful communication for a variety of audiences.
- Promote understanding of different cultures and global perspectives.
- Support creative and expressive use of language.
- Enable learners to apply language skills across contexts for learning, life, and work.
- Foster lifelong language learning and curiosity.

Mathematics and Numeracy

Mathematics provides more than opportunities to calculate, it enables information to be handled and communicated and problems to be solved. Mathematics is used in all aspects of everyday life, allowing us to make sense of the world around us. Children need to be confident and competent in their numeracy skills to be able to function responsibly in everyday life and contribute effectively to society.

The mathematics outcomes in A Curriculum for Excellence are outlined within the following areas:

Number, money and measure
Shape, position and movement
Information Handling

The mathematics outcomes allow teachers scope to plan for a wide variety of experiences which will enable young people from age three onwards, to develop mathematical understanding, allowing them to solve problems, transfer knowledge to other curricular areas and develop mathematical thinking.

The teachers use a range of teaching strategies and resources to develop mathematical skills and improve mental agility. These include: SEAL Maths, Number Talks, Numicon, TJ Maths.

#KPSLovesMaths

We aim to help the KPS children become confident, capable, and logical problem-solvers who can use numeracy in all areas of life and enable them to:

- Use numbers confidently in everyday life, work, and learning.
- Apply mathematical skills to solve problems in real-life and abstract situations.
- Understand and use mathematical language clearly and accurately.
- Reason logically and make connections between mathematical ideas.
- Interpret and analyse data to make informed decisions.
- Develop confidence and resilience in tackling numerical challenges.
- The teachers plan engaging and effective numeracy lessons and learning experiences to:
- Develop learners' confidence in using numeracy across learning and in daily life.
- Support application of mathematical skills to real-life and abstract problems.
- Encourage accurate use of mathematical language and communication.
- Build logical reasoning and ability to make connections across concepts.
- Promote skills in interpreting, analysing, and using data for decision-making.
- Foster resilience and a positive attitude towards numerical challenges.

Health and Wellbeing

Health and Wellbeing within Curriculum for Excellence is concerned with all aspects of mental, emotional, social and physical wellbeing now and in the future.

Health and Well Being is subdivided into the following areas:

- Mental, emotional, social and physical wellbeing
- Planning for choices and changes
- Physical education, physical activity and sport
- Food and health
- Substance misuse
- Relationships, sexual health and parenthood

Everyone within our school community, shares the responsibility for creating a positive ethos and climate of respect and trust - one in which everyone makes a positive contribution to the wellbeing of each child and adult within our school and the wider community. Our pupils should feel happy, safe, respected and included in the school environment and all staff should be proactive in promoting positive behaviour in the classroom, playground and the wider school community

We aim to help the KPS children become confident, healthy, safe, and responsible individuals who can make positive choices for themselves and others and enable them to:

- Develop confidence, self-esteem, and resilience to manage challenges.
- Build positive relationships based on respect, care, and responsibility.
- Make informed choices about physical activity, diet, and lifestyle.
- Understand emotional wellbeing and strategies for managing feelings.
- Learn to stay safe and make responsible decisions.
- Contribute to the community and develop skills for learning, life, and work.
- The teachers plan engaging and effective Health and Wellbeing lessons and learning experiences to:
- Support learners to develop confidence, resilience, and self-esteem.
- Promote positive relationships based on respect, responsibility, and care.
- Encourage learners to make informed, healthy lifestyle choices.
- Build understanding of emotional wellbeing and coping strategies.
- Develop awareness of safety, risk, and responsible decision-making.
- Prepare learners to contribute to society and gain skills for learning, life, and work.

Certain aspects of health and wellbeing will be taught through focussed programmes such as our personal and social education programme which includes our Anti-Bullying programme. Other aspects such as Substance Misuse will be taught in partnership with other agencies such as school health. Every year our Primary seven pupils have a three-five day outdoor residential experience. These experiences are an important part of our Health & Well Being programme and enable our learners to experience challenge in a safe and controlled setting.

Sexual Health and Relationships Education is an integral part of a school's health education programme. It focuses on the physical, emotional, moral and spiritual development of all children. Teachers are central to the delivery of sexual health and relationship education from Primary 1-7 and work in partnership with parents/carers and appropriate health professionals. Parents/carers will be fully informed and consulted on the content and purpose prior to lessons commencing and will have the opportunity to raise concerns with school staff. On an occasion where a parent/carer wishes to exercise the right to withdraw his/her child from sex and relationship education they should discuss their concerns and alternative arrangements with school staff (as per Inverclyde Council's policy "Sexual Health and Relationship Education").

Physical Education

P.E. in the curriculum is a valued and important part of a child's development. All children receive two hours of quality PE each week.

Our Active Schools coordinator Ross Stewart supports the school in organising a wide range of sports (curricular activities and lunchtime/after school clubs) eg rugby, football, netball, Tae Kwon Do and tennis. We also have excellent links with Port Glasgow High School and every week Sports Leaders visit the school to support the PE curriculum.

As part of their curriculum, Primary 4 pupils have swimming lessons at Port Glasgow Swimming Pool. We actively promote 'Outdoor Learning' as being outside brings many health benefits including increased physical activity, and improves emotional wellbeing and mental health. All children take part in the 'Daily Mile' - we call it the 'MUGA Mile'.

Classes will be notified of their PE days at the beginning of the year and these days will be highlighted on the class newsletters which are on the school website. We would strongly ask parents to support us in delivering our PE lessons by encouraging children to bring their PE kits to school.

Kilmacolm Primary PE Kit:

- Navy Shorts
- School Polo Shirt or Cotton T-shirt
- Sand shoes/trainers (these can be used as the indoor shoes too)

*(a school gym kit is available from Smiths in Greenock - shorts and t-shirt with school badge)

Please note that the wearing of jewellery, including pierced earrings, in P.E. is strictly forbidden.

Cycling

Each year Primary 6 pupils are given the opportunity to take part in the Cycling Proficiency Scheme.

Pupils who achieve their Bikeability Award are encouraged where possible to cycle to school. We would ask that other pupils who choose to cycle/scoot to school are supervised by a responsible adult. We have a bike shed in the playground which is secured during school hours. The bike shed is available to any pupils to secure scooters/bikes throughout the day.

Social Studies

Social Studies identifies three lines of development:

- People, past events and societies
- People, place and environment
- People in society, economy and business.

In social studies, effective learning and teaching will draw upon a variety of approaches including active learning, independent learning, cooperative learning, outdoors, field trips, visits and external contributors.

Active citizenship is a central feature of learning in social studies for children and young people, developing skills and knowledge to enable and encourage participation. Social studies offer opportunities for children and young people to become involved in their local community and the wider world and are therefore an important vehicle for opportunities to consider and develop their role as active and informed citizens.

Sciences and Technologies

Curriculum for Excellence challenges us to ensure that all children must develop a secure understanding of important scientific concepts and that their experience of science in school should kindle a lifelong interest in science.

The science outcomes have been developed into seven areas:

- Planet Earth
- Energy in the Environment
- Communication
- Forces and Motion
- Life and Cells
- Materials
- Topical Science

The science outcomes are designed to stimulate children's interest and motivation, and to support staff in planning challenging, engaging and enjoyable learning and teaching activities including active learning, problem solving and scientific enquiry, use of technology with much more emphasis on children explaining their understanding of concepts. Within the technologies, children can develop their creativity and entrepreneurial skills and be encouraged to become innovative and critical designers of the future.

#KPSLovesSTEM

We aim to help the KPS children become curious, creative problem-solvers who can use STEM knowledge and skills to shape their lives and contribute to society and enable them to:

- Develop curiosity and creativity through exploring science, technology, engineering, and maths.
- Apply problem-solving and critical thinking to real-world challenges.
- Make connections across STEM subjects and understand their role in society.
- Use digital skills and technologies confidently and responsibly.
- Understand the impact of STEM on the environment, work, and everyday life.
- Build skills for future careers in a rapidly changing world.
- The teachers plan engaging and effective Health and Wellbeing lessons and learning experiences to:
 - Foster learners' curiosity, creativity, and exploration across STEM disciplines.
 - Develop problem-solving, critical thinking, and innovation skills.
 - Promote understanding of the connections and relevance of STEM in society.
 - Encourage confident, responsible use of digital skills and technologies.
 - Highlight the impact of STEM on the environment, work, and everyday life.
 - Prepare learners with skills for future careers and lifelong learning.

Information & Communication Technology (ICT)

Being skilled in using ICT is essential if children and young people are to be effective contributors, and to communicate and interact on a global scale. We have a computer suite within school which houses 15 PCs and 16 laptops with internet access. All our classrooms have computers and interactive whiteboards.

Glow is the world's first national intranet for education, developed exclusively for Scotland's educational community. What Glow Provides -

- A trusted and safe environment for pupils, practitioners and parents
- A variety of online tools to enhance learning experiences
- Virtual learning to share information and take part in a lesson
- Opportunities to engage and immerse young people in powerful and relevant learning experiences
- Motivation and support for individualised learning, personalisation and choice

#KPSLovesICT

We aim to help the KPS children become confident, responsible, and capable digital citizens who can use technology creatively and safely and enable them to:

- Use technology confidently, safely, and responsibly for learning and life.
- Access, manage, and evaluate information from digital sources effectively.
- Create and communicate content using a variety of digital tools.
- Develop problem-solving and computational thinking skills through digital tasks.
- Understand the ethical, social, and environmental impacts of digital technologies.
- Prepare for lifelong learning and future work in a digital world.
- The teachers plan engaging and effective Digital Literacy lessons and learning experiences to:
- Develop learners' confidence and responsibility in using digital technologies.
- Support skills to access, evaluate, and manage information effectively.
- Encourage learners to create, communicate, and collaborate using digital tools.
- Foster problem-solving, computational thinking, and innovation through technology.
- Promote awareness of the ethical, social, and environmental implications of digital technology.
- Prepare learners with skills for lifelong learning and future digital workplaces.

'LET'S GROW & COOK TOGETHER'

We aim to help the KPS children become healthy, confident, and responsible while gaining practical skills and understanding about food and enable them to:

- Develop knowledge and skills in growing, preparing, and cooking food.
- Promote healthy eating and lifestyle choices.
- Encourage creativity and experimentation with ingredients and recipes.
- Build practical life skills for independence and everyday life.
- Foster teamwork, communication, and problem-solving through shared cooking activities.
- Understand sustainability, food sources, and environmental impact.
- The teachers plan engaging and effective Health and Wellbeing lessons and learning experiences to:
- Develop learners' knowledge and skills in growing, preparing, and cooking food.
- Promote healthy eating and lifestyle choices.
- Encourage creativity, experimentation, and innovation in cooking.
- Build practical life skills for independence and everyday life.
- Support teamwork, communication, and problem-solving in food-related activities.
- Foster understanding of food sustainability, sourcing, and environmental impact.

Expressive Arts

Learning in, through and about the expressive arts helps children recognise and appreciate their own and others' creative and artistic abilities and enables children and young people to:

- express themselves in different ways and be creative
- experience enjoyment
- develop important skills specific to the expressive arts and also transferable skills
- develop an appreciation of aesthetic and cultural values, identities and ideas
- for some, prepare for advanced learning and future careers by building foundations for excellence in the expressive arts.

Expressive Arts covers the subjects -

- Art and design
- Dance
- Drama
- Music

Art & Design

This plays a major role in the education of the pupils and also greatly enhances the appearance of the school. Pupils have a tremendous sense of pride when their creative work is displayed.

Drama

This is delivered in a variety of ways by the class teacher. Some use is made of radio/T.V. programmes and the drama lesson is often related to topic work using such techniques such as role-playing or an imaginative play.

Dance

Through dance children explore movement and rhythm and performance skills. Occasionally we have the opportunity to work with professional arts companies.

Music

We are very lucky to have a range of musical tutors who visit the school throughout the session. Children will be asked if they would like to begin lessons and after the tutor assesses them they will be given an instrument to take home.

We have the following music tutors in KPS:

- Violin Tuition: Kathryn Baillie (P5-7)
- Brass Tuition: Andrew Digger (P6-7)
- Chanter/Drumming Tuition: Andrew McDonald (P6-7)
- Singing Tuition: Jane Howie (P5-7)
- Drumming Tuition: Amanda Currie (P5)

The children all perform at the P5-7 KPS Celebration Event in June.

Religious and Moral Education

Religious and Moral Education helps children and young people to explore the world's major religions and views which are independent of religious belief, and to be challenged by these different beliefs and values.

Our programme helps develop awareness and appreciation of the value of each individual in a diverse society, and helps our pupils develop responsible attitudes to other people.

Our programme of study is structured under the headings :

- Christianity
- Beliefs
- Values and issues
- Practices and traditions
- Other World religions

Religious Observance

Religious Observance will provide experiences which will be meaningful to all pupils and staff, aiding their spiritual development.

Our school community comprises staff, pupils and families from a variety of faith backgrounds and worldviews. This diversity will be valued and considered when planning acts of Religious Observance.

Opportunities will be planned -

- to allow pupils and staff to engage in shared activities reflecting and expressing their spiritual needs and aspirations
- to celebrate important occasions in the life of the school and the community
- to involve pupils and staff in experiences which stimulate, challenge and extend their capacities for spiritual response to the world in which they live.

Withdrawal from Religious Observance

Under the terms of the Education (Scotland) Act 1980, parents have the right to ask for their child to be withdrawn from Religious Observance. In the past the school has dealt with such requests with sensitivity and understanding and this approach will continue. The Head Teacher will offer to meet with any parent wishing to withdraw their child to ensure that they are clear about the school policy on Religious Observance. In particular, parents should be reassured that the Religious Observance planned by the school adopts an open and respectful approach and does not seek to compromise the beliefs of any pupils or their families. Where a child is withdrawn from Religious Observance, suitable arrangements will be made for the pupil to participate in a worthwhile alternative activity.

We have links with the Rev Brian Kerr from the Old Kirk in Kilmacolm, he visits the school regularly and participates in school assemblies and events.

#PlayTheKPSWay

We aim to help the KPS children become creative, confident, social, and curious while developing important life and learning skills and enable them to:

- Encourage creativity and imagination through active, playful experiences.
- Develop social skills like sharing, cooperation, and teamwork.
- Support emotional wellbeing by allowing expression, confidence, and risk-taking in a safe environment.
- Enhance problem-solving and thinking skills through exploration and experimentation.
- Foster physical development and coordination through active play.
- Promote curiosity and learning across all areas of the curriculum.
- The teachers plan engaging play learning experiences to:
 - Encourage creativity, imagination, and curiosity through play experiences.
 - Develop social skills including sharing, cooperation, and teamwork.
 - Support emotional wellbeing by promoting confidence, expression, and safe risk-taking.
 - Enhance problem-solving, experimentation, and critical thinking through play.
 - Promote physical development, movement, and coordination.
- Use play to connect and reinforce learning across all curriculum areas.

Outdoor Learning

‘All aspects of the curriculum can be explored outside. The sights, sounds and smells of the outdoors, the closeness to nature, the excitement most children feel, the wonder and curiosity all serve to enhance and stimulate learning.’

Building the Curriculum 2: Active Learning in the Early Years, 2007

Outdoor Learning doesn't just mean learning about the outdoor environment, although that is an important part of it, rather it means simply taking learning outdoors. It provides relevance and depth to the curriculum in ways that are difficult to achieve indoors. Children see that learning is not something that is confined to the classroom and encourages them to link curriculum areas. This awareness promotes lifelong learning and develops critical thinking skills. Outdoor Learning is an ideal setting for multi-sensory learning and provides excellent opportunities to use a wide range of skills and abilities not always visible in the classroom. Outdoor Learning connects children and young people with the natural world and encourages lifelong involvement and activity in Scotland's outdoors. Outdoor Learning enriches the curriculum makes learning fun, meaningful and relevant. Being outside has many health benefits, increases physical activity and improves emotional well-being and mental health.

We are so fortunate with our beautiful and spacious school grounds and with access to the local woods, we aim to make full use of them in our learning.

#KPSLovesOutdoorLearning

We aim to help the KPS children become curious, confident, responsible, and resilient while connecting learning with the outdoors and enable them to:

- Develop curiosity and exploration through direct experiences in the natural environment.
- Enhance knowledge and understanding of the environment, sustainability, and ecosystems.
- Build skills for health and wellbeing through physical activity and outdoor challenges.
- Encourage teamwork, communication, and problem-solving in real-life contexts.
- Foster creativity, imagination, and reflection through engaging with nature.
- Promote responsible citizenship by understanding and caring for the environment.
- The teachers plan engaging and effective Outdoor Learning lessons and learning experiences to:
 - Promote curiosity, exploration, and hands-on learning in the outdoors.
 - Develop learners' knowledge of the environment, sustainability, and ecosystems.
 - Support physical wellbeing, resilience, and health through outdoor experiences.
 - Encourage teamwork, communication, and problem-solving in practical contexts.
 - Foster creativity, imagination, and reflective thinking through outdoor engagement.
- Promote responsible citizenship and environmental stewardship.

ASSESSMENT

Assessment is an integral part of learning and teaching, helping to provide a picture of a child's progress and achievements and to identify next steps in learning. Learning should show breadth, challenge and application of acquired skills in new and unfamiliar contexts.

Education Scotland advise that the dialogue is the most important factor when assessing the children's learning. In Kilmacoll Primary we are equipping the children with the skills to talk about their learning and express what their next steps in learning are. This is done through a variety ways eg reflective dialogue, peer and self-assessment, Learner Conversations. It is very important that children are given the opportunity to talk about their successes and challenges.

Teachers use assessment evidence to provide useful feedback to learners and parents, to adapt learning and teaching approaches to meet their needs and to revisit areas where learning is not yet secure. Assessment takes place throughout the school year. Teachers assess constantly as part of daily learning and teaching, to see what children know, understand and are able to do.

Teachers assess in other ways eg **written responses** like tests; and evaluation of a final product e.g. a piece of artwork, report or a project; **observations** of pupils carrying out tasks like practical investigations; performances, presentations and discussions.

We also assess transitionally, at the end of a Curriculum for Excellence level. This would be a far more holistic type of assessment, drawing on a full range of assessment evidence and professional judgement, evaluating 'how much' and 'how well' an individual has learned.

We carry out **spelling assessments** at the beginning and end of each session. This allows tracking of learner progress and allows teachers to develop and build on individual spelling skills.

Writing assessments are carried out four times a year. Again, these are used to track pupil progress and identify specific targets for individual learners.

Maths assessments are typically carried out at the end of a particular topic. These may take the form of a check-up or practical assignment.

Every child's progress is tracked each term through the Tracking Meetings, which involve input from the HT, DHT, Class Teacher and Support for Learning Teacher.

REPORTING

'Reporting has two main purposes. Firstly, it provides clear, positive and constructive feedback about children's and young people's learning and progress, looking back on what has been achieved against standards and expectations. Secondly, it creates an agenda for discussions between learners and those teaching and supporting them about their next steps in learning.'

Building the Curriculum 5: A Framework for Assessment & Reporting

Here is an outline of our planned reporting activities this year -

September	Meet the Teacher
November	Parents Evening
December	Learning Profile
May	Parents Evening
June	Learning Profile

There will be many opportunities for updates on your child's learning journey, progress and achievements throughout the school year. These include the school newsletters, the class newsletters, information on the school website and on Twitter and at showcase events. The children also receive recognition for their achievements at the monthly GOLD Assemblies and this information is recorded on the monthly Sway Newsletters.

TRANSITIONS

Enrolment - Primary One

Enrolment for children starting in Primary 1 is in January. Parents should enrol their child online for the primary school for which they are zoned. There will be advertisements in local and national press intimating the dates for enrolment. We also send notices to each of the Nursery Schools as well as by regular home communication. The opportunity is always available for all prospective parents to visit and be shown round the school before any final decision is made.

Placing Requests

Under the Parents' Charter, parents have the right to their choice of school for their child but should first register at their local school where they will receive information about making a Placing Request. If a parent wishes to consider a placing request, this can be completed online when enrolling for P1. Placing requests at any other time can be completed via an online form (on the Inverclyde Council website).

Induction Days

We have a very effective Induction Transition programme. New entrants are invited to take part in a variety of activities and events from January to June. Parent/carer visits take the form of informal afternoons when parents/carers are given information about the school and the curriculum offered, to have a look at some resources and the layout of the building. An opportunity is given to ask questions while the children are visiting their classroom and meeting their teachers.

Transfer from Primary School to Secondary School

Pupils are normally transferred between the ages of 11 1/2 and 12 1/2 years so that they will have the opportunity of completing at least 4 years of Secondary education. Port Glasgow High School hold an information evening for P6/7 pupils and parents in November where parents and pupils have an opportunity to visit the school and meet some of the staff. Prospective parents are welcome to call the school at any time to arrange a visit. Throughout the year, staff from Port Glasgow High School visit the school to meet with the pupils and to enhance the delivery of our curriculum. Induction days are arranged in June, when P7 pupils have the opportunity to visit the school for two days.

Transition Information

Staff from the receiving secondary schools visit and communicate with the primary seven teacher to discuss pupil progress and curriculum content to ensure progression. An important feature of the transition process is the pupil profile. Primary seven pupils develop their profile throughout the year detailing their best achievements and attainments. Parents will have an opportunity to see these profiles and contribute to them. The profiles will then be shared with the receiving secondary school. Staff also share important medical information.

If pupils have additional support needs, a transition meeting will be arranged to allow pupils, parents and staff to meet and prepare a smooth transition and ensure essential information is passed on.

SUPPORT FOR PUPILS

Children and young person's needs are identified in a number of ways, and the process of assessment is an ongoing, shared process with partnerships with parents and carers at the forefront. On some occasions health service staff or other partner agencies make children known to Education Services. Other additional support needs may be notified to Education Services by parents themselves or identified by one of a range of staff working closely with the child.

"As with all local authority schools in Scotland, this school operates under the terms of the Additional Support for Learning Act (2009) and its accompanying Code of Practice. These procedures have been strengthened through the Children and Young People Act (2104)."

Every teacher has a responsibility to support the learning of all pupils in their class. The type of support offered will vary according to the needs of pupils. This includes consideration given to children who have a disability, children with social, emotional and behavioural difficulties, children with learning difficulties of a specific or general nature, children who are exceptionally able, those who demonstrate underachievement relating to gender issues, children whose learning has been interrupted through absence or illness, bilingual children who have English as an additional language, travelling children and those whose family circumstances impact on attendance and learning.

If a parent considers that his or her child has additional support needs and wishes to make enquiries about this, they should contact the Head Teacher.

Some children and young people will have additional support needs arising from complex or multiple factors which require a high degree of co-ordination of support from both education and other agencies in order that their needs can be met. In these cases, the school will hold a meeting to decide whether the child or young person meets the criteria for a Co-ordinated Support Plan. The coordinated support plan is a statutory document which ensures regular monitoring and review for those children and young people who have one.

You have the right to ask the education authority to establish whether your child needs a coordinated support plan. Your child can make this request themselves, if they are aged 16 or over. You and your child, if they want to, will attend a meeting with staff at their school. Other professionals from different agencies who may be involved in providing support for your child will also attend. If your child does not want to attend meetings or feels unable to, their views must still be sought and considered.

Additional Support Needs in Kilmalcolm Primary - if you require any information or advice please contact:

Simone McCredie HT
ASN Coordinator - Lynn McPherson, DHT
Support for Learning Teacher - Karen Jamieson

Getting It Right For Every Child underpins everything that we do in Kilmacolm Primary School.

Your child's wellbeing is considered in terms of Safe, Healthy, Achieving, Nurtured, Active, Respected, Responsible and Included.

A child or young person's needs are identified at the earliest possible stage and can be met in a number of ways, for example by adaptations to the curriculum or learning environment, as well as input from the Support for Learning Teacher and on occasion support from visiting specialists. The appropriateness of the support is determined through a process of assessment, planning and monitoring, working jointly with parents and carers, and is regularly reviewed. When a teacher or parent is concerned about any aspect of their child's progress, a Wellbeing Assessment may be undertaken.

Learning outcomes for children and young people with additional support needs are set out in a plan and all educational establishments hold regular review meetings with parents and carers to determine needs and the most appropriate supports. Everyone's views are equally important in order to consider what is currently working and how to determine next steps.

Further advice may be available from Enquire, the Scottish advice service for additional support for learning. Operated by Children in Scotland, Enquire offers independent, confidential advice and information on additional support needs.

SCHOOL IMPROVEMENT

The information regarding the main achievements of the school is detailed in our Standards and Quality Report which is available to view on our school website. Details on how the school has improved standards for pupils in relation to Literacy, Numeracy and Health and Well-being are also included in our Standards and Quality Report.

[KPS Standards and Quality Report](#)

Our plans for future improvement are detailed in our school Strategic Improvement Plan..

[KPS School Improvement Plan](#)

Here is a summary of our targets for Session 2025/26:

1. Improvements in attainment, particularly in literacy and numeracy
2. Close the gap between the most and least disadvantaged children
3. Improvements in children and young people's health and wellbeing
4. Improvement in employability skills and sustained positive school leaver destinations for all young people

School website address:

<http://kilmacolm.inverclyde.sch.uk>

Our school was last inspected in November 2013. Details of the report can be obtained from the Education Scotland website:

Practical Information

The School Day

School starts	9am
Interval	10:30-10:45am
Lunch	12:15-1pm
School Ends	3pm

Interval

At the interval and at lunchtime, pupils will be supervised in the playground by our support staff and by the janitor. We have wonderful school grounds allowing pupils lots of space to play and explore.

Classes have designated areas in the playground, ensuring our younger pupils are away from more energetic games such as football. We have a wildlife garden and sensory garden for children to explore, however it can get rather muddy and sometimes has to be out of bounds. Each class has a designated day where they can play on the MUGA.

As our intervals are often spoiled by bad weather, sometimes we have to have 'wet plays' indoors. At these times, pupils remain in class and are supervised by support staff and P7 monitors. We would also ask that parents do not give their children fizzy drinks or sugary snacks either as snacks or in their packed lunches. We also ask that parents do not send birthday cakes to school.

PE Days

The details of the PE days can be found on the class Sway Newsletters on the school website.

Lunchtime

Catering Services aim to provide a menu system, freshly prepared, with health and cost a priority. Meals and snacks are prepared in the school kitchen by Catering Services. Parents should be aware that children with medical conditions requiring special diets can be catered for. Parents should supply a diet sheet if possible. Meals are compiled with Scottish Diet Action Plan as a priority; the choice of menu is run on a 3 week plan with meals changing every day. Menus are available to download from our website and are displayed in school. P1-7 children do not need to pay for their school lunch.

Packed Lunches

Pupils bringing packed lunches to school are accommodated in the dining area. As we have children in the school with a peanut allergy, we would ask that parents are vigilant and do not send in nuts or nut products.

Home Lunches

Some pupils may prefer to go home for lunch. We would ask that parents phone the school office to inform the staff if any child goes home for lunch.

Free School Meals

Children of parents in receipt of one of the following benefits are entitled to a free lunch:

- Income Support
- Income-based Job Seeker's Allowance
- Child Tax Credit, but not Working Tax Credit, and where income is less than £15,860 (as assessed by the Inland Revenue)
- an asylum seeker receiving support under Part VI of the Immigration and Asylum Act 1999
- Any income related element of Employment and Support Allowance
- Parent or carer is in receipt of Working Tax Credit with an income below the threshold for receipt of maximum Working Tax Credit (currently income below £6,420).

Information and application forms for free school meals may be obtained from schools and Education Services
105 Dalrymple Street
Greenock, PA15 1HU.

Parent Pay

All schools in Inverclyde are 'cashless', so every parent has access the Parent Pay system which allows parents to pay for items online eg school trips, show tickets etc. The senior clerical assistant can issue parents with their activation code and give advice on how to set up an account.

Wet Weather

Rain

When the weather is bad, the janitor will open all pupil entry doors at 8:45am. Pupils may enter the building and get ready for classes. Pupils should not enter classes until teachers are present.

Ice/Snow

When the playground is very icy/slippery, the janitor will grit a path from street to the main pupil entrance at the front of the school. All pupils will be directed to use this entrance.

Adverse Weather

Information in Emergencies

We make every effort to maintain a full education service, but on some occasions, circumstances arise which lead to disruption. Schools may be affected by, for example, severe weather or power failures. In such cases we shall do all we can to let you know about the details of closures and reopening. We shall keep you informed by text, letter, our school app, Twitter and the authority website. Announcements may also be made on local radio and in the press and on the Parent Partnership Facebook page.

School closure during the school day

Should the need arise to close the school during the school day; the school will contact all families, in the first instance by text message. This will also be announced via the Parent Partnership Facebook page.

Please note - Children will not be allowed to leave school to walk home without an adult as there may not be school crossing patrollers. If we are unable to contact parents, children will remain at school with a member of staff. It is vital that in these circumstances the school has up to date contact details.

What to Bring to School

Children should bring

- water bottle (filled every morning)
- pencil case with two sharp pencils, rubber & ruler
- Small snack for breaktimes

We encourage our primary one children to buy a book bag for keeping their homework and reading book.

Children should not bring

- expensive jewellery
- electronic items such as iPods, game consoles
- expensive toys
- toy guns / weapons

Mobile Phones & Smart Watches - Parents may wish their child to bring a mobile phone/smart watch to school so that they are contactable at the end of the day. We would ask that all mobile phones/smart watches are switched off during class time and given to the class teacher for safe storage. Pupils should not use phones to contact parents during the school day; all contact with parents during the day should be via the school office. Phones may not be used in the playground to take photographs at any time. Mobile phones/smart watches are the pupils' responsibility at all times.

Parents should note that the authority does not carry insurance to cover the loss of such items and any claims submitted are likely to be met only where the authority can be shown to have been negligent.

Medical and Health Care

In primary one all pupils have their height, weight and vision checked. Any concerns are referred to child's GP or school doctor. In primary seven all pupils are screened as in primary one. Parents will not be informed in advance before these routine checks in P1 and P7.

Every child is offered a flu vaccination by means of a nasal spray. Parents are informed beforehand and have the right to inform the school if they wish their child to withdraw from the programme.

Medication

Parents of children requiring medication during school hours are welcome to come in to administer the medication. Should this be impossible we require parents to complete a Medication Form (available from the school office).

Schools may **not** administer the first dose of medication / application of cream or ointment. This is to ensure that children do not suffer an adverse reaction to medicine.

Inhalers

If your child has been prescribed an inhaler, please ensure that he/she has it with him/her at all times. This is very important when children are leaving the building to go on outings or to take part in sporting events. The first aider will regularly review the inhalers and parents will be contacted if the inhaler is close to it's end of use date.

Emergency Contact

If a child is unwell or has had an accident the parent or emergency contact is informed and asked to collect the child. If no one can be contacted the child will be kept in the Medical Room or in real emergency taken to the local Doctor or Inverclyde Royal Hospital. It is very important that we have a local number as the emergency contact. School should be informed if the contact changes at any time.

Allergy Aware School

We are proud to be an 'Allergy Aware School'....

CLOTHING

The following is the official policy of Inverclyde Council regarding the need for suitable clothing to be worn:

There are forms of dress which are unacceptable in school, such as items of clothing which:

- i. Potentially, encourage faction (such as football colours)
- ii. Could cause offence (such as anti-religious symbolism or political slogans)
- iii. Could cause health and safety difficulties such as loose fitting clothing, dangling earrings or clothing made from flammable material for example shell suits in practical classes
- iv. Could cause damage to flooring
- v. Carry advertising, particularly for alcohol or tobacco and
- vi. Could be used to inflict damage on other pupils or be used to do so

The council is concerned at the level of claims being received regarding the loss of children's' clothing and/or personal belongings. Parents are asked to assist in this area by ensuring that valuable items and unnecessarily expensive items of clothing are not brought to the establishment. Parents should note that the authority does not carry insurance to cover the loss of such items and any claims submitted are likely to be met only where the authority can be shown to have been negligent.

Parents should note that the activities the children may become involved in may be restricted because health and safety requirements state that jewellery of any kind must not be worn where children are undertaking physical activities. This includes jewellery worn as a result of body piercing.

All of our parents support the wearing of school uniform, which helps to create a sense of pride and belonging to our school.

There are several options available-

Grey trousers or skirt/pinafore
Tartan pinafore/kilt
Navy school sweatshirt
Navy or grey sweater/cardigan
White shirt/polo shirt
School Tie
Navy blue school fleece
Plain or braided blazer

There is also a 'relaxed uniform' for PE and Outdoor Learning Days-

Navy blue joggers/leggings
White polo shirt
Navy sweatshirt
***no branded items please**

Embroidered sweatshirts, polo shirts, blazers and jackets are available to buy from **either** www.schoolwearmadeeasy.com or from **Smiths of Greenock** throughout the school year.

Parents of children receiving one or the following benefits will normally be entitled to monetary grants for footwear and clothing for their children:

- Income Support
- Income-based Job Seeker's Allowance
- Child Tax Credit, but not Working Tax Credit, and where income is less than £15,860 (as assessed by the Inland Revenue)
- an asylum seeker receiving support under Part VI of the Immigration and Asylum Act 1999
- Any income related element of Employment and Support Allowance
- Parent or carer is in receipt of Working Tax Credit with an income below the threshold for receipt of maximum Working Tax Credit (currently income below £6,420).

Approval of any requests for such grants made by parents in different circumstances are at the discretion of the Corporate Director Of Education and Communities.

Information and application forms may be obtained from schools and from the:

Education Services & Social Care
105 Dalrymple Street
Greenock
PA15 1HU.
