

Rainbow Family Centre

Our Aims

Safe

We aim to provide a safe, friendly and caring environment, which is well maintained and resourced, where children and families can feel protected and supported.

Healthy

We aim to access an environment suitable to support physical communication and mental health for children and families allowing them to make safe and healthy choices and to offer the opportunity for individuals to reach their full potential.

Achieving

We aim to ensure children and families are receiving the guidance and support required to enhance confidence and self-esteem within the Centre, at home and in the wider community. Children and families will gain opportunities to experience positive peer relationships and have their particular educational and social needs met.

Nurtured

We aim to provide a nurturing environment for children and families, where they can form, trust, emotional security and develop quality stable relationships.

Active

We aim to offer activities and programmes within the Centre and in the Wider Community which are suitable for all, and ensure opportunities for children to take part in leisure activities and pursue their individual interests and skills.

Respected

In an environment which is supportive and consistent, encouraging a strong sense of self-esteem, we aim to actively listen to all children, parents and carers views taking them into account when making decisions.

Responsible

We aim to provide an environment where children and families feel they can be responsible for their own learning with appropriate support from all staff.

Included

We aim to provide an inclusive environment for all children, families and the wider community without discrimination or prejudice.

We offer the opportunity for children and adults to participate in a safe, caring and supportive environment, to offer individuals to participate in activities and programmes both within the Centre and The Wider Community, giving everyone the chance to reach their full potential.
