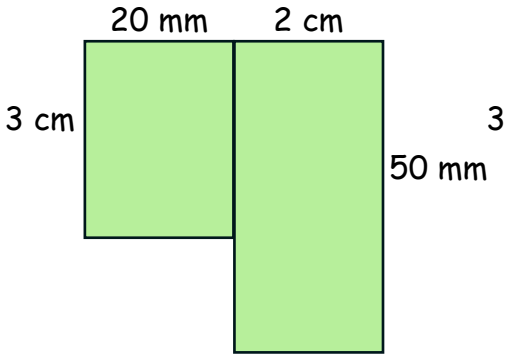
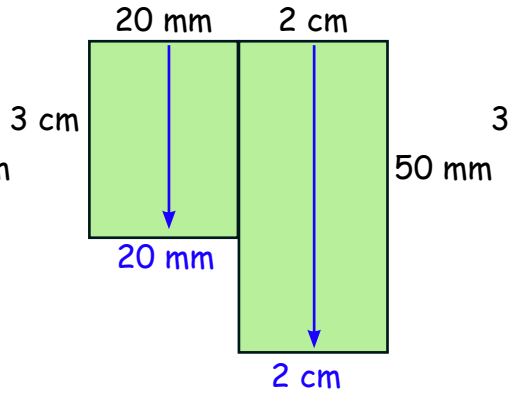
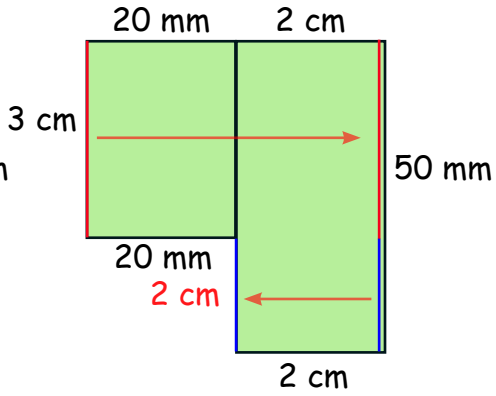
Finding the Perimeter of Compound Shapes

Example. Calculate the perimeter of the figure leaving the answer in the smaller units.



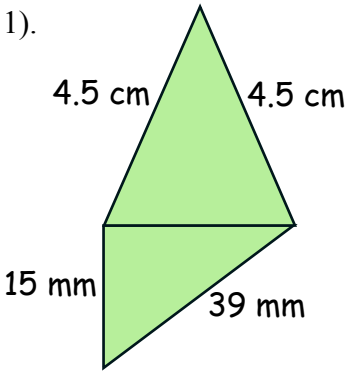




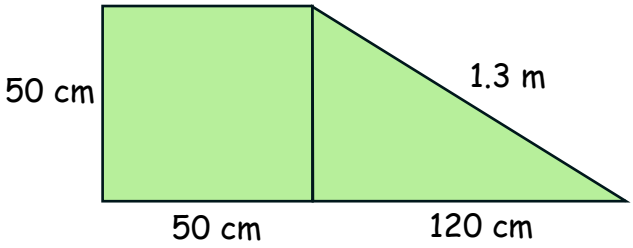
Total perimeter = 20 mm + 20 mm + 50 mm + 20 mm + 20 mm + 20 mm + 30 mm = 180 mm.

Calculate the perimeter of the figures shown below leaving the answer in the smaller units.

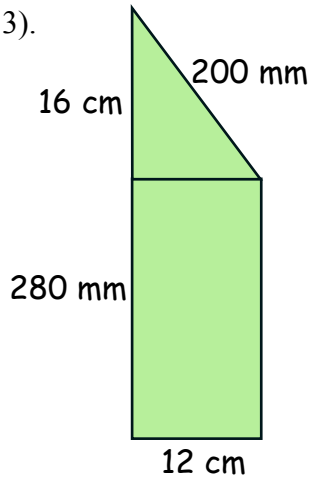
1).



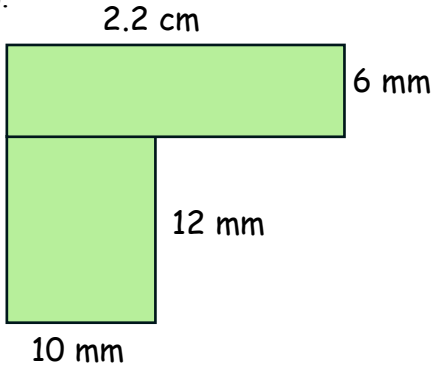
2).



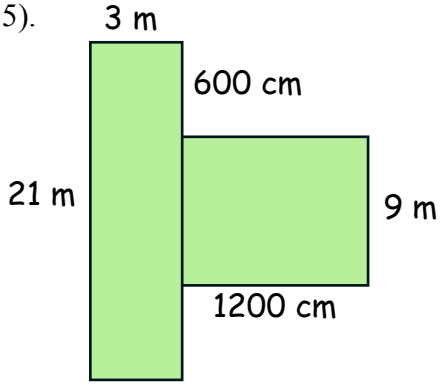
3).



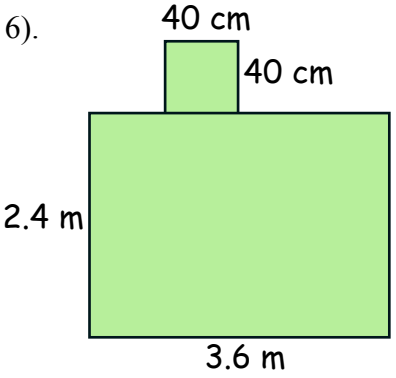
4).



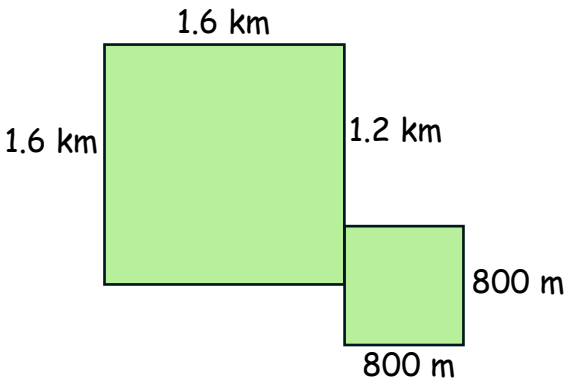
5).



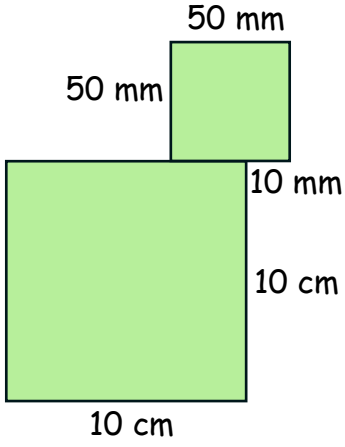
6).

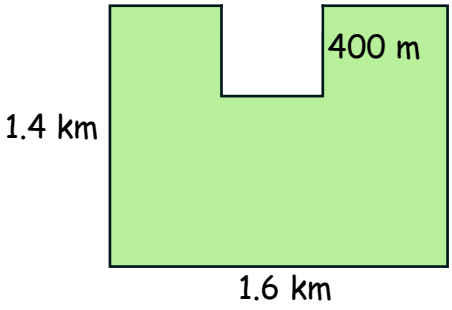


7).



8).





9).
