Wood Joints Task Sheet

Name the following joints and state how they might be used:

Name: _____

Use: _____

Name: _____

Use: _____

Name: _____

Use: _____

Name: _____

Use: _____

A sequential diagram is a series of images that visually give information without the use of words. Ikea furniture 'how to' construction instructions are given this way:

Task: Use the space below to draw a sequential diagram of how you would cut a Mitre Joint. Use these steps to help you: 1. Getting the material. 2. Marking out the material. 3. Selecting the correct tools. 4. Securing the work for cutting. 5. Cutting the material. 6. Checking the mitres come together. 7. Sanding the end faces of the mitres. 8. Gluing the joint together.
