Foundation Apprenticeship Civil Engineering

Entry Level Recommended

Students should have achieved credit at level 4 and be working on some level 5 subjects especially in maths and physics. The course duration is over 2 years and would involve 4 afternoons a week for 2 years

Our towns and cities are designed and built by civil engineers.

They create everything from our tallest buildings, to canals, bridges and even electricity networks. A Foundation Apprenticeship (FA) in Civil Engineering could be the building block you need for a career in the industry.

The Foundation Apprenticeship

An FA Civil Engineering helps you discover what a career in civil engineering would be like, and if it's right for you – while you're still at school. You'll try different engineering roles, shadow experienced engineers, or do a special project. You'll build the practical skills and experience you need to do the job well.

What qualifications will I gain?

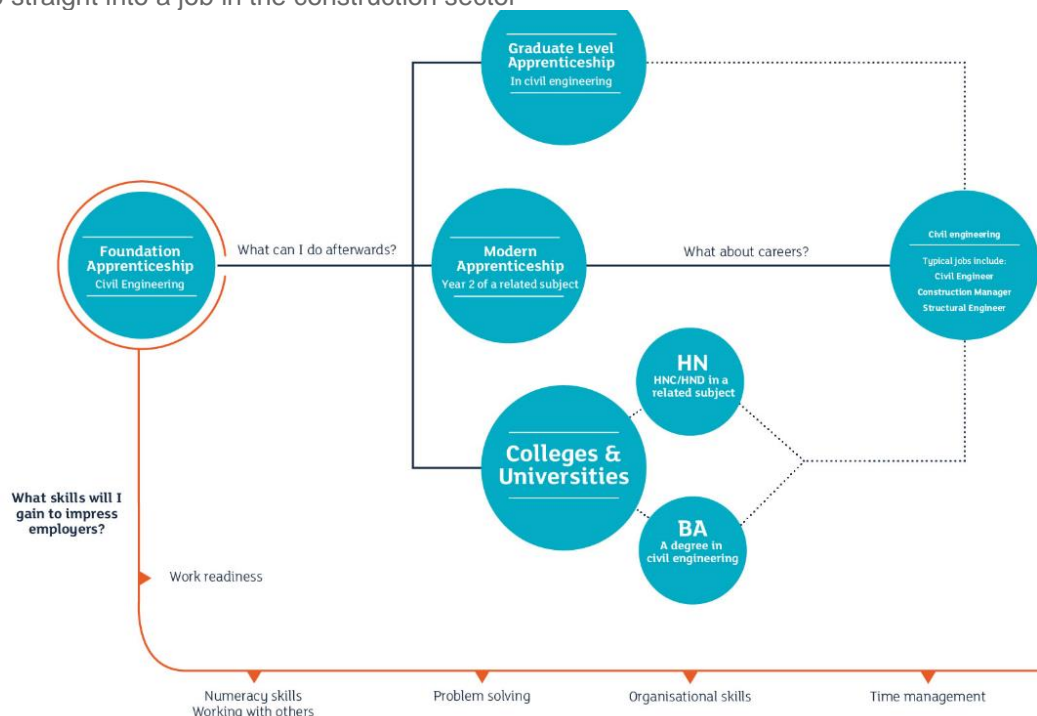

You'll be assessed throughout your FA Civil Engineering. At the end, you'll achieve a Foundation Apprenticeship (Group Award) in Civil Engineering at SCQF Level 6, which includes:

- A National Certificate in Civil Engineering (at SCQF Level 6)
- At least one unit from the SVQ3 in Civil Engineering (at SCQF Level 6)

Where could it take me?

With a FA Civil Engineering you could:

- Gain direct entry into second year of onto the Modern Apprenticeship in Civil Engineering Contracting or Civil Engineering Consultancy at SCQF Level 6
- Explore options for a related Graduate Level Apprenticeship in Civil Engineering
- Continue your studies at college or university
- Go straight into a job in the construction sector

Foundation Apprenticeship Engineering

Entry Level Recommended

Students should have achieved credit at level 4 and be working on some level 5 subjects especially in maths and physics. The course duration is over 2 years and would involve 4 afternoons a week for 2 years

What is engineering? The short answer is, everything around you.

Engineers help create milk cartons, aeroplanes, wind turbines - even the device you're using to read this page. They find new, better ways to solve problems.

Sounds interesting? A Foundation Apprenticeship (FA) in Engineering could be your first step into this exciting industry.

The Foundation Apprenticeship

An FA Engineering helps you discover what a career in engineering would be like, and if it's right for you – while you're still at school. You'll try different engineering roles, shadow experienced engineers, or do a special project. You'll build the practical skills and experience you need to do the job well.

What qualifications will I gain?

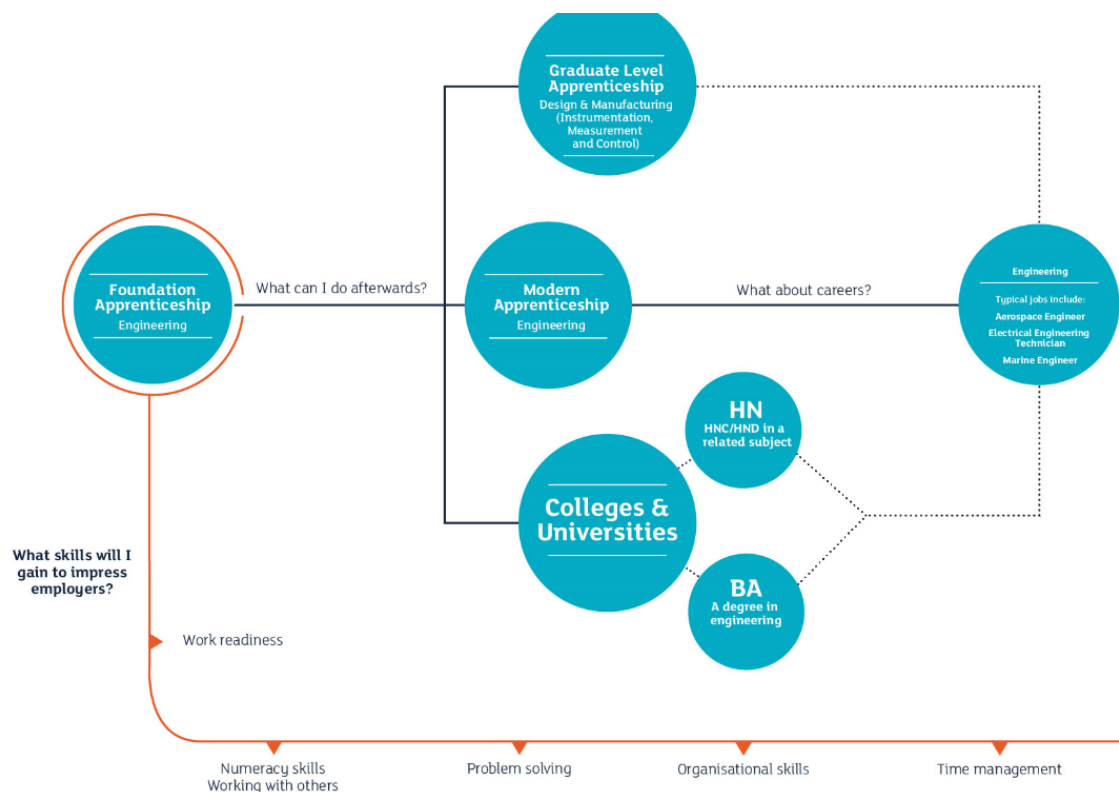

You'll be assessed throughout your FA Engineering. At the end, you'll achieve a Foundation Apprenticeship (Group Award) at SCQF Level 6, which includes:

- Five units from the SVQ2 in Performing Engineering Operations (SCQF Level 5)
- A National Certificate in an Engineering Discipline at SCQF Level 6

Where could it take me?

With a FA Engineering you could:

- Gain accelerated entry onto the Modern Apprenticeship in Engineering (SCQF Level 6/7)
- Explore options for a related Graduate Level Apprenticeship in Engineering
- Go on to study at college or university
- Go straight into a job in the engineering sector

Foundation Apprenticeship Social Services and Healthcare

Entry Level Recommended

Students should have achieved credit at level 4 and be working on some level 5 subjects and above at the same time as studying the course

Caring for vulnerable people, to help them live in comfort and dignity.

Supporting people when they need it most. That's what work in this rewarding and vital sector means.

Up for the challenge? A Foundation Apprenticeship in Social Services could set you on the right track.

The Foundation Apprenticeship

An FA Social Services and Healthcare helps you discover what a career in care would be like, and if it's right for you – while you're still at school. You'll try different job roles, shadow experienced staff, or do a special project. You'll build the practical skills and experience you need to do the job well.

What qualifications will I gain?

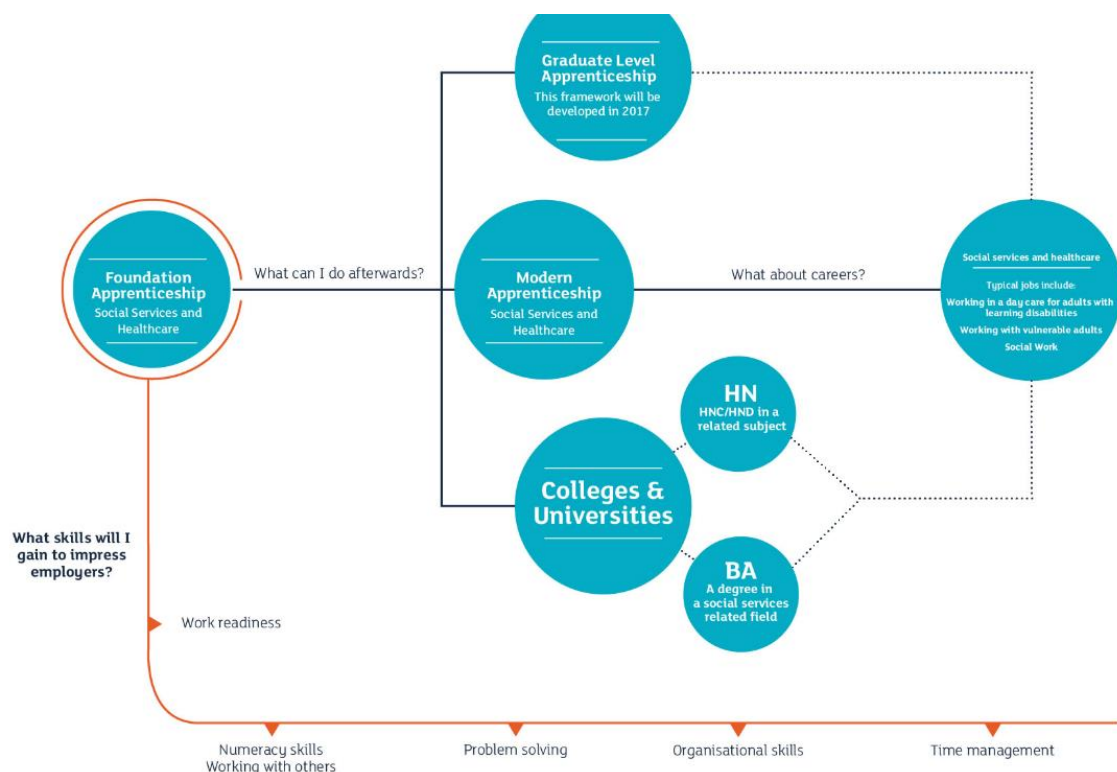

You'll be assessed throughout your FA Social Services and Healthcare. At the end, you'll achieve a Foundation Apprenticeship (Group Award) in Social Services and Healthcare at SCQF Level 6, which includes:

- Four units from the SVQ2 in Social Services and Healthcare at SCQF Level 6
- A National Progression Award in Social Services and Healthcare at SCQF Level 6

Where could it take me?

With an FA Social Services & Healthcare you could:

- Gain entry onto the Modern Apprenticeship in Social Services and Healthcare at SCQF Level 7
- Explore options for a related Graduate Level Apprenticeship
- Continue your studies at college or university
- Go straight into a job in the healthcare sector

Foundation Apprenticeship Social Services Children and Young People

Entry Level Recommended

Students should have achieved credit at level 4 and be working on some level 5 subjects and above at the same time as studying the course

All children and young people deserve the best possible start in life – no matter what their circumstances are.

This sector is about making sure they get it, and grow up to be happy and confident.

A Foundation Apprenticeship (FA) in Social Services – Children and Young People could get you started in a rewarding career.

The Foundation Apprenticeship

An FA Social Services – Children and Young People helps you discover what a career working with young people would be like, and if it's right for you – while you're still at school. You'll try different job roles, shadow experienced staff, or do a special project. You'll build the practical skills and experience you need to do the job well.
