

What are we doing to improve our school this year? 2021-2022

We are developing quality approaches to teaching and learning in Literacy in order to raise attainment.

We are introducing play pedagogy in Primary 1 to ensure a consistent approach across Early Level.

We are aiming to become a Rights Respecting School with Silver award and re-establish our Eco work.

We are working to ensure that pupils have a meaningful say in decision making across the school.

We are continuing to provide targeted interventions to raise attainment. Primary 7 will have Team Teaching.

We are aiming to work with parents again this year when covid restrictions are lifted.

We continue to support the Health and Wellbeing of all pupils as we continue our recovery from the Covid19 lockdowns and ongoing restrictions.
